TOWN OFFICERS, 1901.

Selectmen, Overseers of the Poor and Surveyors of Highways.

FOR TWO YEARS,
WALTER CROSBY.

FOR ONE YEAR,
GEORGE I. DOE.

FOR THREE YEARS,
EDWIN S. FARMER.

Assessors.

FOR TWO YEARS,
GEORGE I. DOE.

FOR ONE YEAR,
LUCIAN C. TYLER.

FOR THREE YEARS,
OMAR W. WHITTEMORE.

Town Clerk, Treasurer and Collector.

B. DELMONT LOCKE.

School Committee.

FOR TWO YEARS,
WALTER CROSBY,
TIMOTHY O'LEARY,
WILLIAM H. H. TUTTLE.

FOR ONE YEAR,
HATTIE F. HORNBLOWER,
JOHN H. PERRY,
IDA F. ROBBINS.

TOWN OFFICERS.

FOR THREE YEARS,

ANNA E. DODGE,

ANDREW F. REED,

WALTER A. ROBINSON.

Truant Officers.

GARRITT BARRY,

DANIEL M. HOOLEY,

GARRET J. CODY (deceased).

Water Commissioners.

GEORGE P. WINN, for two years.

PETER SCHWAMB, for one year.

GEORGE W. LANE, for three years.

Sewer Commissioners.

WARREN W. RAWSON, for two years.

WINFIELD S. DURGIN, for one year.

EDWARD S. FESSENDEN, for three years.

Park Commissioners.

FRANK W. HODGDON, for two years.

S. FREDERICK HICKS, for one year.

HENRY D. DODGE, for three years.

Board of Health.

EDWIN P. STICKNEY, 2d, for two years.

EDWIN MILLS, for one year.

EDWARD S. FESSENDEN, for three years.

Commissioners of Sinking Fund.

THEODORE SCHWAMB, for two years.

WILLIAM G. PECK, for one year.

A. D. HOITT, for three years.

Trustees of Pratt Fund.

GEORGE HILL, for four years.

JAMES A. BAILEY, for three years.

WILLIAM G. PECK, for two years.

WILLIAM E. WOOD, for one year.

HENRY HORNBLOWER, for five years.

B. DELMONT LOCKE, *ex-officio*.

Trustees of Robbin's Library.

E. NELSON BLAKE, for two years.

JOSEPH C. HOLMES, for two years.

SAMUEL C. BUSHNELL, for one year.

MATTHEW ROWE, for one year.

WALTER B. FARMER, for three years.

JAMES P. PARMENTER, for three years.

Trustees of Elbridge Farmer Fund.

WM. E. PARMENTER,

Fence Viewers.

JOHN H. HARTWELL, MATTHEW ROWE.

Measurers of Wood.

OMAR W. WHITTEMORE,
LUCIAN C. TYLER,
EDWARD I. MCKENZIE.

Fish Preserver.

DANIEL WYMAN.

REPORT OF THE SELECTMEN.

The following report is herewith submitted by the Selectmen for the year ending December 31, 1901 :

The town has temporarily suffered a substantial loss to its treasury, but suit has been brought on the bonds of Treasurer and Collector, in accordance with the vote of the town, to recover the amount of the loss. The papers in the case have been prepared and the case is to be entered in Court January 6, 1902. Messrs. Elder, Wait & Whitman, Attorneys, have been employed by the Selectmen to act in connection with the Town Counsel. Roland A. Swan was complained of for larceny about the first of May, and was afterwards indicted by the Grand Jury, on numerous counts. He pleaded guilty to all the counts, and on November 6th he was sentenced to the State prison for a term not less than eight nor more than ten years. Further details relating to this matter have been presented to the town by written report of the Selectmen, which report has been printed and distributed in the same manner as town reports are distributed. It is therefore not thought worth while to fill up this report with a repetition of the details.

May 8th the Treasurer and Collector appointed Mr. Harvey S. Sears as his assistant, Mr. Sears giving to Mr. Locke a bond in the sum of \$10,000.00. October 26th Mr. Locke resigned his offices as Treasurer, Collector and Town Clerk, and all other offices held by him, the resignation to take effect upon the appointment and qualification of his successor. On the same day Mr. Sears was appointed and sworn as Town Clerk. November 6th Mr. Sears was duly appointed Treasurer and Collector of Taxes *pro tempore* and his bond for \$20,000.00 with the United States Fidelity and Guaranty Company as surety was approved November 15th.

Pending the recovery of the moneys of the town on the suit against the Treasurer and Collector and his sureties, it will be necessary for the town to borrow money for the immediate use of the town. If the loan is made on a very short time, the vote of the town should authorize such renewals or extension of the loan as are necessary.

Early in November the Selectmen requested the Board of Auditors to audit the books and accounts of Mr. Locke as Treasurer and Collector, and to report to the Selectmen as soon as possible. No special report upon the matter has been made.

Owing to the trouble in the Town Treasurer's office early in the year, we were not enabled to secure a stenographer and typewriter until the first of July. Since that time we have had an account of the receipts and expenditures of several departments kept, and have been enabled to ascertain in a few minutes the standing of the various accounts. We consider the services of a stenographer and typewriter an essential requisite for the successful conduct of the business of the office.

We make no recommendations in regard to change of officials or methods of keeping accounts. One committee has already reported on this matter and another has been appointed to report at some future meeting.

Early in the season the West End Street Railway Company laid a track on Medford street and began to operate the cars. The track is part single and part double, with one turnout. One half the macadam removed was teamed by the company, and the remainder by the town, to Lake street. The other was dumped by the company on Cemetery street. The track was paved with square granite blocks. The company paved between the rails and curbstone from the gutter line of Massachusetts avenue the length of the double track in that end of Medford street. The company also repaved the double track

on Massachusetts avenue, from near Linwood street to the Cambridge line, with square granite blocks. The cobble paving and large browstone which was removed, the company gave to the town to be teamed away. Some of the stones have been used for paving gutters, and some (when the teams have been slack of work) have been teamed to places where it is proposed to pave next year. The remainder are still piled where they were first dumped.

The Lexington & Boston Street Railway Company has laid a second track on Massachusetts avenue from the terminus of the tracks of the West End Street Railway Company at the Heights, to near the Lexington line. The material removed was teamed to Bow street and Park avenue at the company's expense.

Irving street has been laid out under the Betterment Act from Academy street to that part of Irving street already built and accepted from Pleasant street. Summer street from the gateway at the Almshouse to Pine street, was laid out, but was not accepted by the town.

The work on the Grade Crossings has been completed. We have received notice from the Deputy Auditor of the Commonwealth stating that the amount expended to July 15th was \$90,494.64, of which sum the town is to pay 10 per cent. or \$9,049.46. The Decree orders that the Commonwealth shall pay this amount for the town, and as required by law, he designates that it shall be repaid in five annual payments, to bear interest at the rate of 4 per cent. per annum from July 3, 1901, payments to be made as follows:—

On or before Dec. 10, 1902,	.	.	\$1809.90
“ “ “ “ 10, 1903,	.	.	1809.89
“ “ “ “ 10, 1904,	.	.	1809.89
“ “ “ “ 10, 1905,	.	.	1809.89
“ “ “ “ 10, 1906,	.	.	1809.89

STORM DRAINS.

As the price of pipe was very much lower at the time of purchasing than at the time the estimates were made, we were enabled to profit thereby, and to do more work than was expected; 10,509 feet or 1.99 miles of pipe have been laid. Fifty-seven new catch-basins and eight inlets have been constructed, six old catch-basins and one old inlet connected at a total cost of \$12,527.29.

Part of the work was done by contract, and the remainder by the Highway Department. The cost of building shows a slight balance in favor of the work done by the Highway Department. For a full statement of drains constructed, see Superintendent of Streets report. We recommend that the balance be expended on other streets, as there is great need of taking care of the surface water.

STREET WATERING.

One cart has been used by the Highway Department for watering part of the streets, the remaining four were let by contract; a charge of two and one-eighth cents per foot was made to the abutter.

STREET SIGNS.

A number of new street signs have been put up and others repainted.

COAL.

A contract for coal was awarded to the Peirce & Winn Company at the following prices, — Stove, \$5.50; Egg, \$5.25; Furnace, \$5.00; Honey Brook Egg, \$5.55; Georges' Creek Cumberland, \$4.00.

We regret that the Committee of Twenty-one did not recommend the appropriation asked for at the annual meeting for a

combination patrol wagon and ambulance. The use of an ambulance has been required on numerous occasions; on one occasion the police ambulance of the City of Cambridge was used; on other occasions, an undertaker's wagon, and at various other times, any wagon that could be procured.

The efficient condition of the Fire Department proves the wisdom of the generous appropriations made by the town the past few years for its improvement and maintenance. Too much praise cannot be given to all connected with the department for the way in which the fire in the Town Hall Building was handled; if it had got beyond control the loss financially and otherwise would have been very large. We would recommend a sufficient appropriation so that the salary of the Chief Engineer can be raised, as we believe that the present condition of the department is due in a large measure to his earnest and intelligent labors in its behalf.

The Fire Alarm system continues under the control of Mr. LeBaron and the improvements made by him the past year have already proved their worth and we approve of his suggestion in regard to other improvements.

For the details of the Police, Fire and Highway Departments, see report of the Chief of Police, Chief of Fire Department, and Superintendent of Streets.

The accounts of the work done this year on Surface Drains, Sidewalks and Highways are as follows:—

SURFACE DRAINS.

	<u>\$30,960 70</u>

STREET LIGHTS.

One additional incandescent light has been placed on Medford street, making a total of 169 incandescent lights.

TOWN HOUSE.

Owing to the fire which occurred on April 29 last, leaving the condition of the hall in such shape that it could not be let, the receipts have not been so large as in former years. Many repairs and changes have been made which add to the general appearance of the building itself, as well as to the comfort of the people who have the business of the town to do. We consider the building to be in better condition than it has been at any time in the past ten years, and certainly the interior has never been so well arranged for the purposes intended as at the present time. Nearly all the expense of repairs and changes have been paid for without charging to the regular appropriation,—out of insurance money received. The Selectmen's, Water Commissioner's and Treasurer's rooms need a coat of paint and ceilings whitened, for which we have an estimate of \$80.00. Otherwise the building should be good without repairs for several years.

BOARD OF SURVEY.

The Board has given hearings on, and laid out and established grades, viz., Brooks avenue, from Lake street through estate of John P. Squire.

Laurel street, from Brattle street to land of Ralph L. Perry.

ALMSHOUSE.

During the year Mr. and Mrs. Tay have been in charge, nine inmates have been cared for. Two were admitted, one left, one

died and one was sent to Danvers Hospital. At the present time there are six inmates, one female and five males. Five hundred and twenty-three tramps have been lodged and fed.

A new floor has been laid in one of the large rooms, and the roof of the barn has been shingled.

POOR OUT OF ALMHOUSE.

Partial support has been given to eighty-four residents. Full support has been given to fifteen persons, six sane, (Alms-house), eight insane, (Insane Hospital), one feeble-minded, (Feeble-minded School.)

We would call the attention of the citizens of the town to the increase in expenses for the support of poor outside of Almshouse. This is a matter in which the Overseers must use their best judgment in all cases, (the law being mandatory.) This matter, like all others in a rapidly growing town, will require more liberal appropriations.

EDWIN S. FARMER,

GEORGE I. DOE,

WALTER CROSBY,

Selectmen.

REPORT

OF

SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen :

GENTLEMEN :—I submit to you my annual report for the year ending December 31, 1901.

As you are already familiar with the work that has been done on the streets the past year, I will not enter into details regarding the work, but will simply give you an account of the expenditures incurred on the different streets.

Appropriation, Town Grant		\$24,945 60	
Credits		5,758 96	
		<hr/>	
	EXPENDED.		\$30,704 56
Labor and teams	\$18,034 26		
Hay, grain, straw and cement	3,264 67		
Shoeing and repairs	1,144 68		
Repairs on roller	1,182 86		
Barnard Castle scraper	342 00		
Paving, edgestone and stone at crusher	2,283 16		
Concrete and stone cutting	233 95		
Harnesses and repairs	257 56		
Tools, pipe and fittings	323 63		
Blasting material	156 24		
Lumber and stakes	118 08		
Mason's labor and material	380 13		
Oil, grease packing, etc.	174 01		
Grates and castings	38 40		
Repairing water pipe, etc.	94 82		
Veterinary and medicine	80 05		
Engineering and expenses	1,457 26		
Miscellaneous	71 76	29,637 52	
	<hr/>		
Unexpended balance		\$1,067 04	

The above statement shows in a condensed form the amount expended under this appropriation. For a detailed statement of the above expenditures, see report of the Town Treasurer.

An account of the expenditures on the different streets will be found in the following table :

PAVED GUTTERS.

There has been 2124 yards of gutters paved at an expense of \$1388.16. The stone used consisted of four cars of square block paving with a lot taken from the Boston Elevated Railroad, on Massachusetts avenue between Linwood street and the Cambridge line. The lot consisted mostly of round cobblestone and large brow-stone, making fine stone for paving gutters.

There was a large lot of this stone left, which the teams are now hauling to the Heights, and should be used the coming season for paving gutters. The wisdom of paving the gutters on streets with grades of more than three per cent is shown by comparison of streets where the gutters are now paved, with those which remain unpaved.

CARE OF SNOW.

The care of snow is an item that involves considerable expense through the winter months, when the department is obliged to employ a number of men and keep several horses, there being many days when there is not much to do but to exercise the horses and wait for another storm or thaw.

Totals.....	731	1063	1983	4621	991	57	8	1120

SUMMARY.

10,509 feet or 1.99 miles of pipe laid of all sizes.

57 new catch-basins and 8 inlets constructed.

6 old catch-basins and one old inlet connected.

NOTE. Catch-basins and inlets are counted on the streets on which the drains are located into which they connect.

HEALTH DEPARTMENT.

Appropriation.	\$3,000 00
Credits	441 60
					<hr/>
					\$3441 60

EXPENDED.

Labor and teams	\$3,612 09
Harness and repairs	40 55
Repairs on carts	93 00
Sanitary barrels	30 25
					<hr/>
Exceeded Appropriation	\$344 29

It will be seen by the above amount that the appropriation has been exceeded; caused by the increasing demands on the department and the greater distance to dumping places. In the collection of ashes at first there was but little paper and refuse put out; now the greater part of the collection is waste paper and all kinds of rubbish, requiring more teams for collecting than formerly, and keeping a man at the dump to level loads and burn paper.

There has been 102 yards of crosswalks laid at an expense of \$3.25 per yard. The work done and material used on gravel sidewalks has been charged to Highways; there has been nearly 1000 tons of stone-dust used on the walks.

ROLLER AND CRUSHER.

The roller has received thorough repairs and a set of new driving wheels and it is in good condition for next season's work. The crusher is considerably worn, having been in use about twenty-seven years, and with some repairs it will still do good work.

TEAMS AND TOOLS.

The carts will be in good condition after annual repairs and painting with the exception of four watering carts that were considerably damaged in the fire of January 9th. Three of the carts will need new bodies; one, new woodwork — using the old irons. A new Barnard Castle scraper has been purchased this year which saves labor in keeping the streets cleaned. There should be one horse purchased to take the place of the one that died.

Respectfully submitted,

S. E. KIMBALL,
Superintendent of Streets.

REPORT OF THE CHIEF OF POLICE.

To the Honorable Board of Selectmen of the Town of Arlington :

GENTLEMEN :— I have the honor to submit herewith the annual report of the conditions and doings of the Police Department for the year ending December 31, 1901.

ROSTER.

CHIEF.

Alonzo S. Harriman, appointed Chief May 1, 1894.

PATROLMEN.

Garrett Barry,	appointed	November, 1876.
Daniel M. Hooley,	“	May 1, 1887.
Andrew Irwin,	“	April 1, 1889.
John Duffy,	“	July 20, 1891.
James E. Whitten,	“	March 30, 1896.
Charles H. Woods,	“	March 30, 1896.
Fred E. Smith,	“	April 1, 1899.
Robert H. Fall,	“	July 8, 1901.

The Chief and two patrolman are on duty in the day time ; during the night six patrolmen are on duty.

ARRESTS.

Appropriation, (Original)	\$9,157 79
Appropriation, (Special in November)	200 00

For a detailed statement of expenditures, see report of Town Treasurer.

NO LICENSE LAW.

The past year two convictions were made for the illegal sale of liquor, showing that under the "No License Law," the so-called kitchen bar-rooms grow less in number. The difficulty of procuring evidence sufficient for conviction is such as few persons unacquainted with the business are aware of. Each officer is held responsible for his route and I think the illegal sale of liquor is diminishing.

TELEPHONE BOXES.

The telephone boxes put in last year have given good satisfaction, and are of great service to this department.

RECOMMENDATION.

As in my report of 1900, I again recommends that an increase of one officer be made to the force. An officer should be on duty in the station during all hours of the night, have full charge of the night force, be in readiness to receive all messages, either by telephone or otherwise, and have general charge from 6 P.M. until relieved in the morning by the Chief.

I also recommend that a combination ambulance and patrol wagon be procured for the use of this department. The many accidents that have occurred the past year surely show that such a wagon is much needed. I think that the majority of our good citizens will be of the same opinion.

It is my sad duty to report the death of Patrolman Garrett J. Cody, shot while in the performance of his duty July 2, 1901. Kind and considerate, of sterling integrity, faithful and efficient in the discharge of his duties, he had won the respect and esteem of his associates in the department and of the community at large. By his death, the town has lost a good and faithful officer.

APPOINTMENT.

July 8, 1901, Robert H. Fall was appointed a member of the force to fill the vacancy caused by the death of Garrett J. Cody.

CONCLUSION.

In concluding this report, I desire to thank your Honorable Board and all others who have kindly assisted me in the performance of my duties. Also, I would thank the members of the department for the prompt and efficient manner in which they have discharged their duties.

Respectfully submitted,

ALONZO S. HARRIMAN,
Chief of Police.

ELBRIDGE FARMER FUND.

The Trustees of the Elbridge Farmer Fund herewith submit their annual report for the year ending December 31, 1901.

RECEIPTS.

December 31, 1901.

REPORT OF WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31, 1901.

The pipe systems have been extended as required and considerable cement-lined pipe has been replaced by cast iron pipe and abandoned; all of which is shown on the detailed statements which follow.

PIPE EXTENSIONS AND RENEWALS.

In all there have been laid 4,491 feet of 12-inch, 40 feet of 10-inch and 3,440 feet of 6-inch pipe, a total of 7,971 feet of main pipe. Fifteen hydrants and fourteen gates were set, and one hydrant was removed from the low-service system.

There have been added this year forty-eight services, twenty-four connected with the high, and twenty-four with the low-service. Three services have been transferred from the low to the high service and one from the high to the low service. Three sewer-flushing services have been added, making a total of fifty-seven now in use.

The cement-lined pipe replaced and abandoned is as follows :—
3,974 feet of 8-inch, 1,168 feet of 4-inch.

A new 12-inch main was laid on Park avenue over the railroad bridge to replace the former pipe which was abandoned on account of a bad break caused by the filling of the roadway. The expense of this work is to be paid out of the grade crossing fund by the Boston & Maine R. R.

The following tables give the extensions and renewals in detail and a list of abandoned pipes :—

To extend the High Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Kensington road	218	6	1	1
Sutherland road	156	6		

In all 374 feet of 6-inch pipe, one hydrant and one gate.

To extend the Low-Service.

* C. L., Cement Lined.

† C. I., Cast Iron.

In all 3,974 feet of 8-inch and 1,168 feet of 4-inch cement-lined pipe, 517 feet of 12-inch and 366 feet of 4-inch cast iron pipe, eight hydrants and seven gates.

PRESENT PIPE SYSTEMS.

Length of Main Pipe in use January 1, 1902.

LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe...	12	9,014		
“ “ “ ...	8	1,347		
“ “ “ ...	6	12,938		
“ “ “ ...	4	20,144		
Total.....		43,443	63	38
Iron pipe.....	12	6,101		
“	10	3,926		
“	8	8,611		
“	6	15,575		
“	4	11,841		
Total.....		46,054	94	94
Total both kinds....		89,497	157	132
		16.95 miles		

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron Pipe.....	12	16,503		
“	10	17,180		
“	8	12,544		
“	6	40,334		
“	4	524		
Total.....		87,085	176	140
		16.49 miles		

Total of both services: 33.44 miles of pipe, 333 hydrants and 272 gates. In addition there are 3,436 feet of smaller pipes, 2-inch to 1 1-4 inch which are laid in places where hydrants were not needed and the amount of water required was small.

The detailed costs of the pipe extensions will be found in the Report of the Superintendent. Records and sketches, showing the location of the pipes and connections, have been made and arranged in convenient form for use and reference. Similar records have been made for the service-boxes.

QUALITY AND QUANTITY OF WATER.

All of the supply has been drawn from the Metropolitan System. The quantity of water has always been ample and the quality good. It is expected that the quality will improve when the Wachusett reservoir shall have been completed.

The average daily consumption of water on the high-service, in gallons, for the months of the year 1901 was:—

January, 263,000	May, 269,000
February, 292,000	June, 379,000
March, 260,000	July, 426,000
April, 232,000	August, 367,000

September, 334,000

November, 289,000

October, 323,000

December, 271,000

Average for the year, 308,750.

For the 495 services this gives an average consumption of 624 gallons per service per day. The consumption in 1900 was 634 gallons per service, the decrease in 1901 being about 1.6 per cent.

LIMITS OF HIGH AND LOW SERVICE DISTRICTS.

According to an understanding with the Metropolitan Water and Sewerage Board the dividing line between the high and low systems has been made to conform as nearly as possible to contour 60 above Boston City Base. The low-service district is bounded by the following streets which are to be supplied from the low service on both sides; the low service is, however, to be extended to the depth of one house-lot only on the high sides of the bounding streets:—Beginning at Mystic Lake, Fairview avenue to Mystic street; Mystic street to Summer street; Summer street to Grove street; Grove street to Massachusetts avenue, including Grove street place and Dudley street as far as Brattle street; Massachusetts avenue to Academy street; Academy street to Maple street; Maple street to Pleasant street; Pleasant street to the Belmont Line, including Pelham terrace.

It is understood that either the high or the low service may be used on Massachusetts avenue between Brattle street and Grove street, also that for purposes of fire-protection the high service may be extended into the low service district.

RESERVOIR.

The reservoir and reservoir lot have received the usual attention. The sum of \$67.29 has been expended during the year in cleaning and weeding. It is recommended that the reservoir lot and the stand-pipe lot be placed in charge of the Park

Commissioners, and that a sufficient annual appropriation be made to keep them in good condition.

WATER METERS.

Water meters still continue in successful use for field irrigation, green-houses, hot-beds and wash-houses. Two meters have been added during the year, and seventy-three are now in use. As long as the assessments in the Metropolitan Water District are based on population and valuation we believe it best to assess domestic services as now, according to the fittings in use. Should, however, assessments be based on amount of water used, we recommend the immediate introduction of meters on all domestic services, believing that a saving of water will result and that the charges will thus be more equitably assessed.

USES AND INCOME.

The following table, prepared by the Water Registrar, shows the number of fixtures supplied and gives the total income for 1901.

	Low.	High.
Number of services	1,123	495
Houses paying \$25.....	239	241
First faucets	1,255	520
Additional faucets.....	1,577	1,150

Hose.....	426	295
Horses	274	38
Cows	62	19
Meters	57	16
Fire hydrants; no income....	157	176
Drinking fountains; no income.....	4	1
Stand-pipes for street watering; no income.....	14	6
Income, 1901.....	\$31,763.58	

STOCK.

There are on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for carrying on the works, about 792 feet of 12-inch, 600 feet of 10-inch, 24 feet of 8-inch, 1704 feet of 6-inch and 3,005 feet of service pipe.

USE OF WATER THROUGH HAND HOSE.

The following regulation for the use of hand hose was adopted by the Metropolitan Water and Sewerage Board August 2, 1901, to apply for the year 1902:—

“The use of water through hand hose on premises where the supply is *not* metered, shall be restricted to two hours in each day, such use to be had between the hours of five and eight A. M. and five and eight P. M. The hose must be used with a nozzle not exceeding three-sixteenths of an inch in diameter, and while so used must be held in the hand of a person on the premises of the water taker. On premises where the water supply is metered the above restrictions do not apply, and a lawn sprinkler may be attached to the hose.” “The minimum rate for hand hose throughout the district for the year 1902 shall be \$4.00 per annum.”

The rules of the department will be found changed to suit the above requirements.

RECOMMENDATIONS.

We renew the following recommendations:—

That all the cement-lined pipes on the low service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is high.

That the water pipes be extended according to the established rules.

That the reservoir be maintained at its present level, and that the grounds around it be placed in charge of the Park Commissioners and used as a park.

Respectfully submitted,

GEORGE W. LANE,
PETER SCHWAMB,
GEORGE P. WINN,
Water Commissioners.

EXTRACTS FROM RULES OF WATER WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely :

DWELLING HOUSES.

Occupied by one family, for the first faucet	\$6 00
For each additional faucet, to be used by the same family	2 00

For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.

For basins not connected, but convenient to other fittings, the rate will be \$1.00 per year.

Where a house is occupied by more than one family, one faucet only being used for all, for each family 4 00

Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house :

Whenever one service-pipe supplies *four* or more tenements, and the rates are paid by the owner, there shall be a discount of ten per cent: *provided*, *however*, that in no case shall the net charge per tenement be less than thirteen dollars per year.

For the first bath-tub	\$5 00
----------------------------------	--------

For each additional bath-tub	3 00
--	------

For bath-tubs convenient to faucets, but not connected, the rate will be \$3.00 per year.

For the first water-closet	\$5 00
--------------------------------------	--------

For each additional water-closet	3 00
--	------

RULES OF WATER WORKS.

For hopper water-closets	\$8 00
For vaults flushed with kitchen sink water, in case such vaults are not used in connection with a water-closet, the rate will be \$2.00 per year.	
When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: <i>provided</i> , that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet	\$10 00
Each additional faucet	2 00
Water-closet or bath-tub, when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

STORES, OCCUPIED AS OFFICE, SHOPS, OR SIMILAR PURPOSE.

First faucet	\$6 00 to \$20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water.	\$6 00 to \$25 00
--	-------------------

HOTELS.

For each bed for boarders and lodgers . . .	\$3 00
For each bath-tub in a hotel	10 00
For each water-closet in a hotel	10 00

PUBLIC BATHS.

For one tub in a public bath-house	\$10 00
For each additional bath-tub	5 00
For one water-closet in a public bath-house	10 00
For each additional water-closet	3 00

STABLES.

Private Stables. For the first horse	\$5 00
“ For each additional horse	3 00
“ For one cow	2 00
“ For each additional cow	1 00
Livery club, and boarding stables. For each horse	3 00
Car and omnibus stables. For each horse	2 00
Truck and cart stables. For each horse	2 00
<i>Provided</i> , that in no case shall any stable be charged less than	5 00

The rates for stables include water for washing carriages without hose ; when hose is used \$3.00 additional.

HOSE.

The following regulations are uniform throughout the Metropolitan District for 1902 :—

The use of water through hand hose, on premises where the water supply is *not* metered, shall be restricted to two hours in each day between the hours of five and eight A. M. and five and eight P. M.

The hose must be used with a nozzle not exceeding three-sixteenths of an inch in diameter, and while so used must be held in the hand of a person on the premises of the water taken.

For hose used in this manner, when supplied from the house service, the charge will be \$4.00 per year. If a separate service is used the charge will be \$6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

STEAM BOILERS.

For each boiler in use not over twelve hours a day,
for each horse-power \$6 00

METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash-houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows :

Up to	40,000 cubic feet per year,	15 cents per 100 cubic feet.
From 40,000 to	80,000 " " " "	13 " " 100 " "
From 80,000 to	1,000,000 " " " "	12 " " 100 " "
Over	1,000,000 " " " "	10 " " 100 " "

The following meter rents will be collected each year in addition to the above charges :—For a 5-8 in. meter, \$2.00 ; a 3-4 in. meter, \$3.00 ; a 1 in. meter, \$4.00 ; a 1 1-2 in. meter, \$8.00.

The minimum charge for metered water, including the meter rent, will be \$15.00. In case more than one meter is used by

a water taker the minimum charge for water will be \$15.00 for each meter, including the meter rent. In case of meters used on hose connections the charge will be the meter rent plus that for water used. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that water takers read their meters occasionally to satisfy themselves whether or not they are working, and that they immediately send notice of any irregularity to the Water Board.

BUILDING PURPOSES.

The minimum charge for water for building purposes is \$3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year :

For a jet of 1-16 of an inch	\$3 00
“ “ 1-8 “ “	5 00
“ “ 1-4 “ “	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is twenty-five cents for each operation.

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the

Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the town shall require.

PIPE EXTENSIONS.

Vote of town, passed April 14, 1896.

VOTED: That the Water Commissioners shall, before laying main water pipes in any street or way, require the party or parties asking for same to deposit with the Town Treasurer the sum of twenty-one cents for each lineal foot of pipe to be laid, less an amount equal to the established water rates for five years on the fixtures supplied at the time of laying the pipe, the said sum to be held by said Treasurer in trust for a term of five years and at the end of said term paid into the town treasury to the credit of the water works, unless the rates actually collected during the said five years on account of fixtures supplied directly from said pipe exceed the amount originally estimated and deducted from said sum of twenty-one cents per lineal foot, in which case said excess shall be repaid to the depositor to the extent of the original deposit and the balance, if any, paid into the town treasury as aforesaid, excepting otherwise ordered by the town.

REPORT OF THE SUPERINTENDENT OF THE WATER WORKS.

To the Arlington Water Commissioners:

GENTLEMEN,—I hereby submit my report for the year ending December 31, 1901.

EXTENSION OF MAIN PIPE AND RENEWALS.

Seven thousand, nine hundred and seventy-one feet of pipe have been laid, 15 hydrants and 14 gates set at a cost of \$11,039.40.

The following table will show the streets where pipe have been laid, with cost of material, labor, etc. :—

MASSACHUSETTS AVENUE, RENEWAL.

Four thousand and seventy-four feet of pipe have been laid in this street.

For 3950 ft. of 12-in. pipe	.	.	\$4,345 00

PIPE, HYDRANTS AND GATES ABANDONED.

Six thousand and twenty-five feet of pipe, 8 hydrants and 7 gates have been abandoned, 3974 feet of 8-inch cement pipe, 1168 feet of 4-inch cement pipe, 517 feet of 12-inch iron pipe and 366 feet of 4-inch iron pipe.

The 12-inch iron pipe and the 8-inch cement pipe have been replaced by 12-inch iron pipe, and all of the 4-inch pipe has been replaced by 6-inch iron pipe.

SERVICE PIPES.

Forty-eight services have been added during the year, 24 connected with the high and 24 with the low service systems at an average cost of \$14.82 each.

Three services have been changed from low to high and one from high to low system.

HYDRANTS AND GATES.

Three hundred and thirty-three hydrants and 272 gates are now in use and are in good condition, 3 leaky and 2 broken hydrants have been removed and replaced by new 5-inch hydrants.

METERS.

There are now 73 meters in use, 8 have been added during the year and 6 taken out.

LEAKS IN MAIN PIPE.

The most serious leak during the year was in the 12-inch main on Park avenue near Oakland avenue on the night of February 26th. Owing to so much frost being in the ground, and the water showing in so many places, it took 4 days to find the break and repair it. The leak was caused by the pipe having been laid on solid ledge.

A few leaky joints have been repaired on the high service system, and a decreasing number on the old cement pipe, owing to so much of it being discontinued.

REPAIRS ON SERVICES.

Sixty-four services have been repaired, 46 on the low and 18 on the high service system.

STAND PIPE LOT.

The driveways have been hoed and the circle around the stand pipe partly regravelled, the grass borders cut and straightened, and all weeds cut down and removed. The Metropolitan Water Board appropriated \$25.00 towards paying their share of the expense.

THE RESERVOIR AND FILTER GALLERY.

The roof of the lower filter gallery has been repaired and painted with coal tar. The rip-rap around the reservoir has been cleaned, and all weeds and floating matter collected and burned.

RECOMMENDATIONS.

I would recommend that the renewal of the cement pipe on Massachusetts avenue be continued from Winter street to below Henderson street to connect with the 6-inch cast iron pipe laid there some years ago, and that at least a 6-inch pipe be laid in Winter street, as the present pipe is inadequate for the protection of property on that street in case of a serious fire; also that the remaining cement-lined pipe be renewed as soon as possible.

Respectfully submitted,

THOMAS RODEN.

ARLINGTON, December 31, 1901.

REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen:—

Replying to your request of January 1, herein please find the report of the Fire Department for the year ending December 31, 1901:—

FIRE ALARMS.

The department has answered twenty-seven bell alarms, and fourteen still or telephone calls. We have not had any serious fires to contend with, although we have had some narrow escapes from heavy conflagrations.

The total value of buildings was	\$57,200
“ “ insurance of buildings was	52,900
“ “ loss on buildings was	4,241 75
“ “ value of contents was	31,500
“ “ insurance on contents was	23,700
“ “ loss on contents was	7,022

MEMBERSHIP.

The membership of the department is the same as in my last report. Mr. George H. Hill declined a re-appointment as assistant chief, he having served the town faithfully for twenty-four years. The town has lost a valuable man. The vacancy was filled by Mr. G. W. W. Sears.

APPARATUS.

The apparatus is all in good repair with the exception of the chemical which will have to have a new set of wheels. I think it would be economy to place rubber tires on the same.

Hose 1 has been fitted with a pole for two horses which is very essential in that section of the town. Hose 2 and 3 have been furnished with exercise wagons.

BUILDINGS.

The buildings are in good repair at present. New doors have been furnished for Hose 3 house. Hose 3 house will need some new water conductors. Very little expense will be incurred on the buildings this year.

HOSE.

We have about the same amount of hose as stated in my last report, with the exception of about five hundred feet which has been condemned. No new hose has been purchased for about three years. We shall be obliged to make a heavy expenditure for hose immediately.

HORSES.

The department has nine horses. A pair of horses has been placed on the chemical, and they have proved very satisfactory. We have been very fortunate this year in having little sickness among our horses. Very little money has been expended for veterinary services.

Hose 1 has consumed 210 bushels of grain, 10,791 lbs. of hay, and 413 lbs. of straw. Hose 2 has consumed 367 bushels of grain, 11,171 lbs. of hay, and 1,966 lbs. of straw. Hose 3

has consumed 390 bushels of grain, 16,656 lbs. of hay, and 655 lbs. of straw, making a total of 967 bushels of grain, 38,613 lbs. of hay, and 3,034 lbs. of straw. This makes an average of \$1.72 a horse per week.

FIRE ALARM.

The fire alarm, in the hands of the superintendent, has given us no cause for complaint. The details of the same you will find in his report.

RELIEF ASSOCIATION.

The Association is in good condition, although each year causes more expense for sickness and death. The Association has lost two members this year by death. Their families have each received \$100 as benefit. I refer to Capt. S. C. Bertwell of Hose 4, who had served the town faithfully for a number of years; also to Garret Cody, past member of the department.

SUGGESTIONS.

I would suggest that those having telephones in their houses or places of business, would call the central fire station before giving the alarm, it giving them much more time to prepare for the fire signal when given. I also suggest that a permanent man be placed at Hose 2 house.

RECOMMENDATIONS.

I would recommend that a separate appropriation be made for the purchase of hose, also that an Eastman Deluge set be purchased. I would further recommend that more boxes be placed throughout the town, — one between Wyman and

Palmer streets, and one on Medford St., near the Russell School, and four boxes on the Heights and vicinity. I would recommend that some better system of alarm be placed at the Heights, and at the lower section of the town. I further recommend that the test blow at 6.45 A. M. and P. M. be changed to two blows, and that the no-school signal be placed on our running card, excepting the hours designated by the School Committee.

APPROPRIATIONS.

To meet the expenses for the ensuing year, I would recommend the sum of \$9,600.

CONCLUSION.

In closing, I desire to thank your honorable board for the gentlemanly manner in which they have received me in my official duty. To my assistant engineers, accept my thanks for the co-operation in all Fire Department matters. To my officers and men, my sincere thanks for the cheerful manner in which they have performed all duties of the department, and the interest taken to render quick and efficient service.

Respectfully submitted,

CHARLES GOTT.

REPORT OF THE INSPECTOR OF WIRES.

To the Honorable Board of Selectmen:—

GENTLEMEN :—I herewith submit my annual report as Inspector of Wires and Superintendent of Fire Alarm for the year ending Dec. 31, 1901 :—

INSPECTION OF WIRES.

During the past year 105 buildings were inspected, in which wiring was installed for electric lighting and electric power. All new work is inspected before being covered up, but we have experienced considerable trouble by lathers covering work before it was inspected. These parties were given to understand that the work would not be accepted until the lathes were removed. In a number of these cases the work was found to be defective and changes were ordered. I would respectfully suggest that a by-law be added to the Building Inspection laws prohibiting the placing of lathes in any building in which electric wiring is being installed, until the same has been inspected and approved by the Inspector of Wires. The class of wiring done during the past year is much superior to what was done a few years ago before the office of Inspector of Wires was created. The work done by this department is as follows :—

Total number of buildings inspected,	105
Total number of inspections made,	217
Total number of buildings inspected for rough wiring,	95
Total number of buildings inspected for fixture work,	68
Total number of incandescent lights wired for,	2,142

Total number of arc lights wired for,	6
Total number of fan motors wired for,	7
Total number of power motors wired for,	5
Total horse power motors installed,	25 5-8

Fifty-two permits were issued to the Somerville Electric Light Company to attach supply service wires to buildings, and one permit was granted the Lexington & Boston Street Railway Company to connect their waiting room at the Heights with a lighting service from their trolley wires.

POLE LOCATIONS. ETC.

Twenty-four permits were issued to the various electric companies owning poles in the town for new locations, to replace or remove poles from the highways. The line of poles on Henderson street, Addison street, and a part of Maple street was rebuilt by the Somerville Electric Light Company, also locations were granted the same Company to build a new line of poles on Brattle street between Massachusetts avenue and Dudley street. The New England Telephone and Telegraph Company were granted permission to place nine new poles on Chestnut street and to remove their old poles from this street. These new poles were set at the recommendation of this office for the purpose of carrying all wires on this street, this one line of poles to take the place of three.

The Atlantic Telegraph Company was granted permission to reset and straighten up its poles on Summer and Lowell streets. In all cases where poles have been found to be defective, they have been promptly replaced by the various companies. The New England Telephone and Telegraph Company and the Somerville Electric Light Company have painted a large number of poles the past year. It was not deemed ad-

visible to order the painting of all old poles as a number will have to be replaced at an early date. The New England Telephone and Telegraph Company have extended their system of underground conduits on Massachusetts avenue from Park avenue to the Lexington line and on Park avenue from Massachusetts avenue to Lowell street. This Company has removed all their aerial cables on Massachusetts avenue between the Cambridge line and Park avenue, also on Pleasant street between Massachusetts avenue and Lake street, placing the same underground, which is a great improvement.

FIRE ALARM SYSTEM.

This system at the present time is in better condition than ever before. All aerial wires and cross-arms were overhauled the past summer in a most thorough manner. A large number of cross-arms and pins were found to be unsound and were replaced. The fire alarm lines on Chestnut street, Medford street, Henderson street, Park avenue, Wollaston avenue and Hillside avenue were rebuilt and are now in perfect condition.

All other wires throughout the system were inspected and strengthened. About 12,500 feet of aerial wire was removed from the poles on Massachusetts avenue and on Pleasant street, also all cross-arms and other fixtures. Two thousand feet of new wire was installed on Massachusetts avenue between Franklin and Tufts streets, which is not in use at present, being a part of one of the new circuits planned when the system is divided into more circuits. All boxes and pipes were painted in the spring as has been the custom here before.

Sixteen thousand, eight hundred feet of rubber covered wire was installed in the underground conduits on Massachusetts avenue, between the Fire Alarm Headquarters in Town Hall and Hose Houses Nos. 2 and 3, and Tufts and Winter streets.

Eight thousand, eight hundred and seventy feet of this wire is in use at present and all of the boxes and other electrical apparatus are connected to this underground system between the above mentioned points, all aerial wire having been removed.

In installing this system of underground wires, four circuits were provided for as recommended in my last report, and all wires are connected and ready for service as soon as the repeater is purchased for headquarters. Seven hundred and fifty-seven feet of one-inch and 25 feet of $\frac{3}{4}$ -inch galvanized iron pipe was laid from the manholes for tap conduits to side streets and boxes. One iron post was placed on Massachusetts avenue, opposite Jason street, for box 39, this post being connected underground with the main conduit system. This post is arranged so that it can be piped for gas at any time for a red lamp on top, showing the location of the box day or night. The town has now 26,800 feet of underground wire, 10,000 feet of this wire being installed on Pleasant street in December, 1900. The boxes on this street have been connected to this system since that time.

One 10-inch gong was placed in Hose House No. 2, in the early summer, which is an improvement over the old way of receiving an alarm from the tower bell striker.

One milliammeter was purchased for the switch board in headquarters, which makes a valuable addition to the other instruments in that office. A new whistle valve was purchased for the air whistle on Town Hall, the old valve being ruined by the fire in that building on April 29, 1901. Also the electric whistle machine had to be thoroughly overhauled, being badly damaged by this fire. The fire alarm room in Town Hall has been equipped with an automatic thermostat system, which is connected to a loud sounding bell in Police Station. This system will immediately sound an alarm in case of a dangerous rise in temperature in this room.

RECOMMENDATIONS.

I would respectfully again recommend that a four-section repeater be purchased and that the fire alarm system be divided into four circuits, as the Chief of Fire Department recommends in his report of this year that more boxes be added to the system, which in my judgment are much needed, as the town has not purchased any boxes for 8 or 9 years. With these boxes added it will not be practical to continue operating this system without making the changes as recommended above.

I would also recommend that two blows be sounded on the Fire Alarm system at 6.45 A. M. and 6.45 P. M. instead of one, which, in my opinion, will be a more reliable way to determine the condition of the tower bells, gongs, etc. Have suggested this change to the Board of Fire Engineers, which they approve of.

Respectfully submitted,

R. W. LEBARON,
Inspector of Wires.

REPORT OF SEWER COMMISSIONERS.

The Board of Sewer Commissioners herewith present their annual report for the year ending December 31, 1901 :

The work of the department has been conducted with the same organization and by the same methods as heretofore. All of the sewers begun during the year have been completed and put in operation and the entire system is working in a very satisfactory manner.

Reference is made to the Town Treasurer's and Town Engineer's Reports for expenditures and details of the work of the department.

The total length of sewers constructed by the town and in operation is 20.53 miles, and the total amount expended for construction and maintenance to date is \$250,588.52.

Sewer assessments have been levied to the amount of \$124,571.37 including \$4,311.38 on sewers constructed by the Commonwealth of Massachusetts. Of this amount \$81,814.61 has been paid to the Town Treasurer.

There have been 1679 assessments levied of which 409 have been apportioned.

The following is an inventory of the property held by the department :

Horses and stable equipment	\$800 00
Tools, materials and appliances	4,298 00
Office fittings, instruments and supplies	694 98
Sewer assessment plans	9,000 00
Total	<hr/> \$14,792 98

Respectfully submitted,

EDWARD S. FESSENDEN,
WINFIELD S. DURGIN,
WARREN W. RAWSON,
Sewer Commissioners.

REPORT OF THE TOWN ENGINEER.

ARLINGTON, Jan. 14, 1902.

To the Honorable Board of Selectmen: —

GENTLEMEN, — The following report concerning the work of the Engineering Department for the year ending December 28, 1901, is herewith respectfully submitted.

The costs of all draughting materials, instruments, stationery and supplies have been paid by the Departments for whose use they were purchased. Also the salaries of assistants are charged each week to the Departments for which work is done, and are divided for the year as follows: —

Highways: For defining street lines and grades for purposes of construction and repairs; making surveys and estimates of cost of proposed street improvements; making measurements and plans for office use and for record; giving street lines and grades for abutters on accepted streets, and for all other work in connection with the Highways,	\$273 00
Sidewalks: For defining lines and grades for edgestone and sidewalks, measurements of completed work and all work relating to sidewalks and cross walks,	125 50
Storm Drains: For making surveys and preliminary estimates for proposed construction; inspection on contract work; lines, grades, locations, measurements and plans for record of work constructed, and for all other work incidental to storm drains,	858 18

Water Department: For defining lines and grades of streets for water pipes and hydrants; measurements and locations of pipes and appurtenances laid; locations of water service boxes, sketches and plans for record of same, and all work incidental to the Water Department,	\$374 12
Cemetery: For record plans of Mount Pleasant Cemetery; giving grades and making estimates for grading, and all work in connection with the Cemeteries,	304 56
Sewers: For making surveys, plans, profiles, estimates; inspection, superintendence; all work in connection with sewer assessments and records, and maintenance of the sewerage system,	943 35
Particular Sewers: For superintendence on Particular Sewer Construction,	417 28
Board of Survey: For examination of plans and profiles and work in connection with the streets laid out by the Board of Survey,	29 47
Schools: For lines, grades, estimates and measurements of concrete and grading at the Cutter and Crosby Schools,	50 65
Fire Alarm: For measurements and plans showing locations of Fire Alarm boxes and conduits,	25 00
Park Department: For data in connection with the laying out of Meadow Brook Park,	6 10
Police Department: For plans and measurements in connection with cases in Court,	10 37

Miscellaneous Work: For copying plans and deeds at Registry, East Cambridge; filing and indexing town plans and records, and taking photographs in connection with claims against the town,

239 72

Total,

\$3,657 00

STORM DRAINS.

There have been 1.99 miles of Storm Drains laid during the year; 1.17 miles by the Highway Department and 0.82 miles by contract. Reference to the table in the Superintendent of Streets report, will show details and the streets where the drains have been laid.

The outlet for the drains constructed in the Crescent Hill District leads into the brook passing through the Reservoir property off Lowell street. In the construction of this work the expense of laying pipe the entire distance from Lowell street to the brook was saved by connecting with the 15-inch pipe laid some years ago to drain a portion of the Reservoir property.

The outlet for the drains in Massachusetts avenue and Appleton street was from Forest street into Mill Brook, opposite Peirce street. The old drain on Forest street, between Peirce street and Massachusetts avenue was relaid during 1900 and 1901, and is now of adequate size to receive all the water that will be required to be disposed of at this point.

All the catch-basins constructed have been provided with hoods to prevent dirt from passing into the outlet pipes, and there is no reason why the drains should not serve for years with little or no expense for maintenance.

The effect of the drains is already very noticeable on the streets where the pipes have been laid. Repairs to these streets can now be made that will be permanent.

The brook crossing Bartlett avenue has been connected with the storm drain, discharging at Mill street, while the entire flow of the brook has not been cut off as yet, it is possible to do this at any time if required.

MOUNT PLEASANT CEMETERY.

Plans showing the entire laying out of Mount Pleasant Cemetery as far as the grading has been completed are now on record.

The grading of the new portion of the Cemetery begun last year has been finished with the exception of the building of the streets.

WATER DEPARTMENT.

Locations and measurements of the new mains, gates, hydrants, specials, etc., have been made and recorded and shown on the plans and sketches of the Water Department. Last year a list of the locations of all the service boxes was started and will soon be completed and ready for reference.

SEWERS.

The following new sewers have been built this year and put in operation :

Appleton street, Hillside avenue to Claremont avenue.

Hillside avenue, Prospect avenue southerly, 241 feet.

Irving street from Pleasant street westerly 342 feet.

Paul Revere road and right of way from Massachusetts avenue to Sutherland road.

Park avenue, extended on the north side to near Prospect avenue.

Pond lane from Massachusetts avenue southerly, 282 feet.

Right of way in rear of Warren street and Franklin street to near Medford street.

Wachusett avenue from Wollaston avenue to Appleton street.

Making a total of 0.63 miles.

Park avenue, Paul Revere road and right of way were constructed under contract with Charles G. Craib & Company of Winthrop; the remainder of the work being done by day labor. The sewer through right of way between Massachusetts avenue and Paul Revere road was laid on timber platform with concrete foundation because of the soft condition of the ground at this place.

The length of the sewers controlled by the town is now 17 91 miles. Reference to the reports of the Town Treasurer and Sewer Commissioners will show the statistics of the sewers to date.

MAINTENANCE.

The sewerage system is maintained by the same methods as in former years. The sewers have been flushed and cleaned and entire system is in good condition. As heretofore, it has been necessary to change the grades of some of the manholes to meet the grade of new street improvements and to adjust them to the changes in the surface of old streets. Water services for flushing purposes have been added where practicable.

PARTICULAR SEWERS.

Ninety-four Particular Sewers have been constructed during the year at an average cost of 53 cents per foot.

There are 650 connections now in operation comprising a total length of 7.95 miles. The methods employed in carrying on the work are the same as last year.

FIRE ALARM.

Plans showing locations of Fire Alarm boxes and conduits have been made, also photographs of various localities showing wires and cables. The new conduits laid by the New England Telephone and Telegraph Company in Park avenue between Massachusetts avenue and Lowell street and in Massachusetts avenue from Park avenue to the Lexington line, makes the total length of underground conduits laid in the town 4.52 miles.

MISCELLANEOUS.

No new streets were accepted by the town during the year 1901. The name of Vine street was changed to Paul Revere road, at the town meeting in November.

The work of separation of grades by the Boston & Maine Railroad at Grove street, Brattle street, Forest street, and Park avenue is completed. Payment to the town by the company has been made for all expense incurred by the departments in connection therewith. The Boston & Maine Railroad Company has built a new wooden bridge of approved design on Lowell street to replace the old bridge which was in unsatisfactory condition.

The addition of the new railroad track on Medford street, between Massachusetts avenue and the Medford line makes the total mileage of street railways in operation in the town 11.18 miles of single and double track.

By direction of the Board of Selectmen stone bounds were set on the town line between Arlington and Belmont at the corner of Spring Lane, and on Massachusetts avenue at the Lexington line. The old line-stones on Spring Valley and Lake street were properly marked with the initial letter of each

town, the cost of the work being apportioned between the towns interested.

Within the past two years the Engineering Department has spent considerable time in indexing and arranging in suitable form for reference the miscellaneous official records and plans belonging to the town, which are constantly accumulating. I am happy to report that a system is now established which can easily be kept up from year to year at small expense. The value of this work cannot be over estimated.

The Engineering Department has now in charge 166 assessment plans, 939 record plans, 276 miscellaneous and preliminary plans, not including sketches and records.

Respectfully submitted,

ROB'T W. POND,
Town Engineer.

REPORT OF THE TREE WARDEN FOR 1901.

To the Citizens of the Town of Arlington:—

I herewith submit my first annual report. At the earnest solicitation of numerous friends who were interested in the welfare of the trees on the highways, I consented to allow my name to be used as a candidate for Tree Warden at the annual election in March, and having been elected by the people, I have endeavored to do all I could to create a feeling to beautify and increase our trees, as well as to protect them.

I employed Mr. A. Foster Brooks as Assistant Tree Warden, and have kept him constantly employed since April 1, and if we wish our trees to have proper care we can use one man all the time and with some extra assistance occasionally. In a few years we will see good results and more interest manifested by continuing a small appropriation each year.

The most serious trouble and the most expensive at present seems to be the Brown Tail Moth, as nearly \$300 was used by my predecessor and myself in destroying the nests of this pest in the section of town, easterly of the centre. The trees in the highways were almost entirely free from their ravages this summer, but as measures were not taken to compel the owners of trees to destroy the pest on private lands, they continue to spread, and I think the law should be enforced and compel everyone owning trees to see that they are cleared of the nests during the winter months, which can very easily be done.

A systematic trimming of the trees has been started and should be continued, and also the trees must be covered with protectors in exposed places, and all new trees set out ought to

have some sort of a protector placed about them, or it is useless to set them out. The Arlington Improvement Association supplied me with 150 galvanized wire tree protectors to be used at my discretion, and should receive the grateful thanks of the town. Owing to the change of grade in many streets, old trees have died and been removed, and in all cases where possible, new trees have been set out. I think the town should set out 100 trees each year until our streets are all properly ornamented.

There is quite a large colony of Gypsey Moths located on Spring street, situated near the Menotomy Rocks Park, and may cause us some trouble unless we make an effort to extinguish them. I have had the nests destroyed wherever found, and the land owners have, I think, used their best endeavors to stop their increase.

WARREN A. PIERCE,
Tree Warden.

REPORT OF INSPECTOR OF PROVISIONS AND SLAUGHTERING.

To the Honorable Board of Selectmen, Gentlemen:—

I herewith submit my report for the year ending December 31, 1901. I have been to all places of business in town from time to time and found all provisions offered for sale were in good condition and had been properly inspected. Have not during the year received any complaints, and would say that the town of Arlington is having as good provisions on sale as there are in the market.

I have inspected the following number of animals slaughtered this year: 1905 veal, eight beef, two pigs, one lamb. In conclusion would say that the slaughter house is very neat and clean, connected with the sewer and in good condition.

Respectfully submitted,

FRANK P. WINN,

Inspector.

REPORT OF THE INSPECTOR OF MILK.

To the Honorable Board of Selectmen:—

I have the honor to submit to you the following report for the year 1901.

Forty-three (43) licenses have been issued to milkmen and storekeepers and the proceeds to the amount of \$21.50 paid into the treasury. I have also examined a number of samples from different milkmen and the test in all cases was very satisfactory.

Respectfully,

CHARLES F. LUSK,
Inspector of Milk.

REPORT OF PARK COMMISSIONERS FOR THE YEAR 1901.

No work other than the care and maintenance of the property in our charge has been done during the past year except the deposit by the town teams of ashes and other waste material on Meadow Park in rear of Mt. Pleasant Cemetery.

During the year the Landscape Architects have been at work on the planting plans for Meadow Park which will be used to lay out the work of improvement as it proceeds in the future so that upon its completion we shall have a park constructed on lines which will best develop the natural beauties of the locality. These plans will probably be completed the coming spring. All the work which has been done on this Park was in accordance with the general plans which were submitted to and approved by the Commissioners nearly two years ago and which are now being developed by the Landscape Architects.

The property at present in charge of the Commission is as follows :—

Menotomy Rocks Park, which has an area of 29.36 acres with a very irregular surface and is well wooded ; a few paths lead through it and it is visited by considerable numbers during the warm weather. A caretaker is employed through the summer to keep it cleared up, enforce the Park rules and prevent damage from fire.

Meadow Park, which has an area of 15.52 acres and consists largely of low marsh land lying on both sides of Sucker or Mill brook. It is gradually being filled, and will eventually make

a pleasant recreation ground out of what would otherwise be likely to become a plague spot.

Russell Park, which has an area of about 1.5 acres, and is used mainly as a playground for the boys in the public schools. It has received little care for many years, and a considerable sum should be spent upon it if it is to be kept in proper condition.

Park around stand pipe at Arlington Heights. This is a circular area of about 1.5 acres on the summit of Arlington Heights, which was laid out as a park by the Arlington Heights Land Company in 1872. It was purchased by the Water Commission in 1894 as a site for the stand pipe, and the central portion was transferred to the Metropolitan Water Board in 1899, and the balance placed in our charge. The lot requires more care than we are able to give it with our small appropriation.

In addition to the above, two small triangular grass plots on Medford street were placed in our charge by the town and the grass on these has been kept cut.

The cost to date of the various parks is as follows, as nearly as can be determined :—

Name.	Land.	Improve- ments.	Mainte- nance.	Total.
Menotomy Rocks Park,	\$14,731 38	\$1,805 67	\$1,727 02	\$18,264 07
Meadow Park,	1,970 18	6,256 55	71 83	8,298 56
Russell Park,		3,156 34	33 75	3,190 09
Stand Pipe Park,	2,537 90			2,537 90
Medford Street Triangles,			113 55	113 55
	<hr/> \$19,239 46	<hr/> \$11,218 56	<hr/> \$1,946 15	<hr/> \$32,404 17

Respectfully,

S. FREDERICK HICKS,
FRANK W. HODGDON,
HENRY D. DODGE,

Park Commissioners.

JAN. 1, 1902.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen, Town of Arlington:—

GENTLEMEN:—I have visited and adjusted the scales, and tested the weights at forty-three stores and mills, and the proceeds to the amount of \$34.67 paid into the Treasury. I have also tested and sealed 2056 milk jars and condemned 100. I have also examined a number of peddlers on the street and with one exception found their measures had all been sealed.

Respectfully,

CHARLES F. LUSK,
Sealer of Weights and Measures.

REPORT OF THE BOARD OF HEALTH.

The reported cases of contagious disease in Arlington for the year 1901 have varied little from those of 1900. The larger number of these cases was a part of the epidemic in November and December of 1900, there having been but few cases reported the last half of the past year.

During the past year the medical inspector of schools has made daily visits to each school, (with the exception of the High school), and has examined 626 children. Of this number 86 were sent home.

From a total of 86, 31 were throat cases. Subsequently 3 developed diphtheria, 2 scarlet fever, 8 ring worms, 3 mumps, 6 measles, 12 whooping cough and 8 chicken-pox. In the schoolrooms from which the cases of diphtheria and scarlet fever were removed, no other pupils were infected.

Any pupil in school thought to be ill by the teacher is reported to the principal. The inspector examines the pupil, and if he considers it necessary, sends the pupil home with a note to parent or guardian to summon the family physician in case of need, and not to return the child to school until well. Most of the pupils thus examined would have remained in school for the day at least, and one with scarlet fever would have remained indefinitely, (as she was desquamating when she first came to school) had there not been in operation this system of daily medical inspection. The great importance of the removal of a pupil from school as soon as the first symptoms of disease are manifested, and while the danger of infecting others is least, cannot be overestimated.

We feel that the work done by the Medical Inspector for the past year fully justifies the establishment of this office, and

we advise that it be continued as a permanent feature of this board.

Owing to the prevalence of small pox in Boston and vicinity, and the well-known immunizing effect of vaccination, it was deemed best by the Board of Health to furnish free public vaccination. Beginning Nov. 25th, a room was given up to this work at the Town Hall, for four hours a day.

Dr. Young, assisted by a nurse, and a clerk to keep the records of vaccination, performed the work. This was continued for 12 days and a total of 1250 applicants were vaccinated. Of 815 who reported afterwards, 97 per cent. had been successfully vaccinated.

The cost of this free vaccination was \$370. To Jan. 1, 1902, no case of smallpox has developed in town. The Board has made most searching inquiries of the surrounding cities and towns as to the expense of caring for smallpox patients, and finally made arrangements with the City of Somerville whereby they will care for any resident of Arlington who is ill with smallpox.

Owing to the small appropriation, large amount of work and limited number of assistants in the bacteriological department of the State Board of Health, the local Boards of Health in the cities and towns of this Commonwealth have been limited to one culture per week in cases of diphtheria. As the physicians can attest, a weekly culture is not sufficient for clinical purposes.

If a primary culture is taken by them on Saturday, they cannot obtain a report from the State Board of Health until Monday. This is too long to wait. In cases of diphtheria the physician is often able to say that the case is *unquestionably* diphtheria and he can at once resort to antitoxine, in other cases the bacteriological examination within twelve hours is imperative that antitoxine may be early employed.

Considering the great importance to all of an early diagnosis

of diphtheria, an agreement has been made with Dr. Darling of Cambridge whereby he will examine and report within twelve hours the result of a culture.

The usual amount of work in destroying and removing the growth of weeds from Spy Pond has been done the past year. The expense has been borne by the town and the ice companies cutting ice from this pond.

An effort is being made to determine the way in which this weed is propagated, that more adequate means may be employed for its destruction.

PLUMBING INSPECTION.

During the year 1901 one hundred and ten applications have been filed and Plumbing permits duly issued in accordance therewith, thirty-four new buildings being included. A large amount of plumbing work has been done under some of these permits in residences and public buildings. The aggregate cost of same is estimated to be much larger than usual for a corresponding number of buildings.

Signed,

EDWARD S. FESSENDEN,
EDWIN P. STICKNEY, M. D.,
EDWIN MILLS,
Board of Health.

REPORT OF TOWN PHYSICIAN.

To the Honorable Board of Selectmen :—

GENTLEMEN :— I respectfully submit the following report of the work done in this department from December 31, 1900 to January 1, 1902.

Number of visits made,	367
Number of office visits,	218
Number of visits to almshouse,	118
Number of public vaccinations,	67

There has been no unusual amount of sickness among the town's poor this year.

At the almshouse the conditions for the welfare and care of our poor during illness have seldom if ever been better than at present. At this institution few cases of acute disease have occurred.

The need of a hospital for infectious diseases occurring among the town's poor is an immediate necessity, and pending the availability of the magnificent Simm's donation, some arrangement should be made providing for their welfare.

Respectfully submitted,

CHARLES A. KEEGAN, M.D.

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington :

The Trustees of the Robbins Library submit their annual report.

In our last report mention was made of the recent opening of the stack to the public after the fitting up of a children's room on the second floor. Time enough has elapsed to demonstrate the wisdom of this action. The children have maintained their interest in their department of the Library by drawing 12,188 volumes and visiting their room so constantly as to require the permanent presence of an attendant, while a majority of the 47,365 volumes drawn by adults have been personally selected from the shelves below without the loss of a single volume.

We note a falling off of 3,700 volumes as compared with last year which is thought to be due to the large circulation of the Book Lovers Library in Arlington.

At the close of the year Mr. Frank W. Hodgdon, after serving as a Trustee for eight years, declined a re-election. He was preceded in office by his father, Dr. R. L. Hodgdon, who served forty years, and by his grandfather, Dr. Timothy Wellington, who served eighteen years, so that this family has the honorable record of unbroken connection with the Library from the date of its organization in 1835 to 1901.

It is a pleasure again to express our thanks to Mr. Winfield Robbins for his great generosity to the Library. In addition to the sixteen volumes which he has sent us the past year, he has recently given a large number of framed portraits of persons distinguished in the history of America and Europe.

These portraits have been selected with great care and form a collection of much interest and value. They have been placed in the Art Gallery where they will be enjoyed by large numbers of people for a long time to come. In the adjoining room is a smaller collection, also given by Mr. Robbins, of portraits distinguished for their artistic merit, or as illustrating the progress of the art of engraving.

We have continued to give exhibitions of paintings and photographs in addition to those hitherto reported.

14. Views of the Green Mountains and Lake Champlain Valley, January and February.

15. Views of Oxford, March and April.

16. Lowell Engravings of Miscellaneous Subjects, May and June.

17. Photographs of the Country of China, September and October.

18. Photographs of the Denver and Rio Grande R. R., November.

The Neighborhood Club has supplemented its gift of last year by several additional volumes.

A memorial volume of Ex-Gov. Haile was presented by his wife and family.

Mr. Henry Dexter, of N. Y. City, sent us a copy of "Who's Who in America, 1901-1902," which has been found very useful.

Dr. Andrew F. Reed has presented a valuable work on Ventilation and Heating.

The editors of the Advocate and Enterprise continue to send

us files of their papers. Mr. Walter B. Farmer was elected by the town to fill the vacancy caused by the resignation of Mr. Hodgdon.

Respectfully submitted,

SAMUEL C. BUSHNELL,

E. NELSON BLAKE,

WALTER B. FARMER,

JOSEPH C. HOLMES,

JAMES P. PARMENTER,

MATTHEW ROWE,

Trustees.

Arlington, December 31, 1901.

REPORT OF TOWN COUNSEL.

BOSTON, December 31, 1901.

To the Selectmen of Arlington:—

The following actions are now pending:—

Edgar vs. Arlington, for damages for bicycle accident on Medford street.

Bond vs. Arlington, for damages arising from alleged defect on Lake street.

Partridge vs. Arlington, for damages for altering grade of Claremont avenue.

Locke vs. Arlington, for damages for bicycle accident Massachusetts avenue.

The following actions have been disposed of this year without the payment of any damages by the town.

Stickney vs. Arlington.

Gray vs. Arlington.

The Stickney case was settled in January, and the Gray case in February.

The town was represented in the apportionment of the Metropolitan sewer assessments last July, and before Committee on Ways and Means in January and February in matter relating to Alewife Brook meadows.

Two petitions have been presented to the court for the adoption of by-laws. In both cases the by-laws were approved by the court. The by-law relating to "Piggeries" was approved by Judge Fox after a serious contest by one of the citizens of the town.

The matter requiring the largest amount of work was that relating to the shortages of the town's moneys, including the

preparation of the case against Roland A. Swan, and the final disposition of the proceedings by his sentence to the State Prison, and including also the work necessary for the preparation for entry in court of the action by the town against the Treasurer and Collector and the sureties on his bond.

In addition to the above matters the ordinary work relating to the transaction of the town's business has been attended to.

WILLIAM H. H. TUTTLE,
Town Counsel.

REPORT OF INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen:—

GENTLEMEN :—I have the honor herewith to submit the first annual report as the Inspector of Animals for the year ending December 31, 1901. Although this office is not a new one, I believe this is the first annual report ever delivered to your Board to be entered in the town report. During the year there have been ten horses found to be diseased with glanders and farcy, which were immediately destroyed. Three cases of horses found to be owned in other towns, but detected within our town limits were reported to the State Board of Cattle Commissioners and taken care of by them.

There has been one case of suspected rabies in a dog which was immediately destroyed. Eleven cows have been quarantined by order of the State Board, which had been brought across the State before being tested for tuberculosis as required by law.

In the fall inspection ordered by the State Board, two hundred and thirty-five (235) cows, and seven (7) sheep have been inspected for tuberculosis ; six hundred and eighty-seven (687) hogs for hog cholera or other contagious diseases. The following certificate showing that this inspection had been made was in all cases given to the owners :—

FORM NO. 2.

MASSACHUSETTS CATTLE COMMISSION.

CERTIFICATE OF INSPECTION OF CATTLE, SHEEP AND SWINE.

(Section 23, Chapter 408, Acts of 1899.)

TO BE GIVEN TO THE OWNER OR PERSON IN CHARGE.

Town or city of _____ Month, _____ Day, 190 ____ .
I hereby certify that I have this day examined the following animals, said

to be owned by Mr. _____ of _____ Street,
 town or city of _____ :—
 Cows in milk, _____ Bulls, _____ Cows dry and not
 fattening, _____ Fatting, _____ Young, _____ Oxen,
 Sheep, _____ Swine, _____

Upon a physical examination I find no evidence of tuberculosis or other contagious disease in any of said animals.

.....
Inspector of Animals.

This certificate is based upon a physical examination.

Ninety-five stables wherein these animals were stabled were inspected, and the following report filled out, and delivered to the State Board :—

Size of building in which neat cattle are stabled, _____ ft. long, _____ ft. wide,
 _____ ft. high.

Size of stable or part of building allotted to cattle, _____ ft. long, _____ ft. wide,
 _____ ft. high.

Is soil under stable wet or dry?

Is stable on north, south, east or west side of building?

Is stable on ground floor, on floor over cellar, or in cellar or basement?

What is width of open space in front of cattle? _____ ft. Of space behind
 cattle? _____ ft.

No. of cattle occupying this stable,

Has stable good light, bad light, or no light?

Has it good ventilation, bad ventilation, or no ventilation?

Is stable clean, unclean, or filthy?

What is done with the manure?

What is the source of water supply?

Is the quality of the water good, fair, or bad?

Has tuberculosis been located in this stable during the past year?

If yes, have premises been properly cleansed and disinfected?

What improvements have been made since last inspection?

Remarks :

.....
Inspector of Animals for above Town.

In all cases where contagious diseases have been found the stables have been thoroughly disinfected before other animals were allowed to occupy the same.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.,

Inspector of Animals.

REPORT OF THE SCHOOL COMMITTEE.

For the Year Ending December 31, 1901.

To the Town of Arlington:

The following report is made for the year ending December 31, 1901 :—

The four lower grades in the Russell building now occupy seven of the twelve rooms, the first two grades occupying four of these seven rooms. The average number of pupils in a room in this building is 46. The largest number in any room is 50. A few more pupils could be accommodated without disturbance if they entered at the right place. It will be seen that the average number is large. In all aspects, except economy, 40 pupils are enough for any room. The question of expansion must be met by providing accommodations elsewhere for a portion of the three or four lower grades. All of these must not be removed from the building. The pupils of these grades residing near the Russell building should continue to attend school there. If relief is given so that there remain only pupils enough of each of these grades to fill one room, there will then be three more rooms for the expansion of the four higher grades. The fifth and sixth grades now occupy together three well-filled rooms, and the seventh and eighth grades each occupy one room. The fifth grade pupils now number 74, sixth 67, seventh 50, and the eighth 54. Further consideration of the condition of affairs at this school seems to point unmistakably to the fact that two outlying 3 or 4-room buildings will be required. One new building would not reduce the number of any grade so as to render any room vacant. These

two 3 or 4-room buildings will evidently be built one on either side of the central lines of travel through the town, the electric line on the avenue, or the steam railroad line. The different sub-districts will readily determine the locations of the new buildings on the point of the greatest convenience. Two new buildings, together with the use of the Russell building for the near-by pupils, would then make it possible to have three divisions of the first and second grades, and of the third and fourth when necessary. Taking out, say two-thirds of each, the first and second grades will leave the remainder of these grades to occupy together, if necessary, one room.

The growth of the schools is shown by the fact that five new rooms, one for the ninth grade in the High School building, and one for each of the other buildings, were opened at the beginning of the fall term.

The condition of all the schools at the present time is highly satisfactory. Good teaching is yielding its fruit. More time is being given to the essentials and the teachers are ready and willing to do everything in their power to give a most firm and stable foundation to the education of the child, while parents do not come to the superintendent and teachers to complain but to see what is best for the pupils. It is doubtful if we have ever had a more harmonious blending of effort, of parent, superintendent, teacher and pupil than at the present time.

The committee have constantly striven to make the best use of the people's money, and while the appropriation seems large, and is certainly generous, nothing has been unwisely spent for that reason.

An examination shows that the school appropriations have only kept pace with the increased valuation of the town. Nothing excessive appears in their total amount upon this basis of comparison. The school appropriations are practically also a uniform percentage of the total appropriations made by the town.

No extraordinary expenditures for the usual running expenses of the school are in sight. It is, however, to be noted that two propositions for increase of salaries are before the committee, one relating to the salaries of the principals of the Crosby, Locke and Cutter schools, the other to the establishing of a maximum salary of \$600.00 for all grade teachers. An increase of all the grade teachers' salaries to \$600.00 would mean an additional annual appropriation of about \$1300.00. The committee are now compelled to pay, in most cases, \$600.00 to secure new and properly qualified teachers.

There is no doubt but that an adequate supply of portable fire extinguishers should be provided in each building.

The committee believe that the question of the enlargement of the grounds of the Locke School should receive the attention of the town at an early date. The word grounds is used advisably instead of school yard, because the pupils of that school have practically no yard to play in, and are forced to use the street for their play ground.

The use of the Robbins Spring House and the old Cutter building was discontinued at the beginning of the spring term and the new Cutter building was then occupied. The new building is complete in all its arrangements and of the most substantial character. The purchase of the land between the old lot and Robbins Road, gives the new lot a frontage to the northwest of two hundred feet. The building was dedicated June 18th. The old building has been removed to a location on the avenue between the avenue and the present school lot.

In two rooms of the Russell building new floors have been laid the past year and the old furniture has been replaced by that of a new and approved pattern. The furniture of five other rooms should be removed as time and circumstances permit. So much of the required work on the Crosby yard as relates to concreting has been finished.

No interruption of the school work has been caused during the school year by sickness. Medical inspection has continued through the year. Last year the committee said that such inspection was a wise safeguard and would undoubtedly almost wholly prevent the closing of schools.

A compulsory school-superintendency law goes into effect July 1st of the coming year. The law will undoubtedly cause some changes in existing school arrangements. It is believed, however, that the principalship of the Russell School and the superintendency can still be continued in one person. The present arrangement is so satisfactory that it will be a misfortune to interrupt it. If it is possible to have the master's assistant of the Russell School take charge of the evening school, a school which must necessarily be soon provided for by reason of our close approach to the number of inhabitants (ten thousand), which makes the establishing and maintenance of an evening school necessary, the most economical if not the best arrangement will have been made to conform to the provisions of both the superintendency and evening school laws.

A substantial improvement in the rooms of the High School building has been made the past year by aid of the income of the Pratt Fund. In works of art and all that tend to make these works, along all their various lines of influence, most effective as an educational factor, the building is a suitable and inspiring home for the pupils and worthy of the inspection and admiration of every citizen.

Miss Anna J. Newton, and Miss Susie L. Austin, teachers in the High School, have each been granted a year's leave of absence. Miss Mabel Butman is teaching in Miss Newton's place and Miss Agnes H. Roop in Miss Austin's place. Miss Florence Perkins has been elected a new teacher for the ninth grade, making now three teachers for that grade.

Misses Alice B. Hicock and Maude E. Gilman have resigned

as teachers of the Russell School. Miss Hicock's place has been filled by Miss Bertha M. Beecher (grade II), and Miss Gilman's by Miss Elizabeth Bassett (grade IV). Miss Mabel C. Pond has been elected as a new teacher of grades III and IV. Miss Carrie M. Poor has been elected as a teacher of grade VI.

In the Cutter School, Miss Katherine E. Russell has been elected as a new teacher for grade IV.

In the Crosby School, Misses M. Evelyn Potter, Vina B. Rogers, Theodora West and Dorothy M. Coleman have resigned. Miss May S. Parker has been elected as an additional teacher in this school. Miss Amelia J. Bisbee has been elected in place of Miss Rogers (grade IV), and Mrs. Esther G. Hatch in place of Miss West (grade I). Miss Eulalie L. Herald has been transferred to the Locke School from the Crosby, to occupy a new room there (grade VI).

Miss Florence L. Wiley has resigned from the Locke School and in her place Miss Susan F. Wiley has been elected (grade IV).

All the rooms in the Russell and Crosby buildings, all but two in the Cutter and all but one in the Locke building are now occupied. Next September all the rooms in the Locke building will be occupied.

The committee have not yet reached any conclusion upon the matter of an evening school which was referred to them by the town, as the investigation by a sub-committee is not yet completed.

Dr. Andrew F. Reed resigned from the committee during the year, and Mr. Harry G. Porter was elected by the committee and the selectmen to fill the vacancy.

WILLIAM H. H. TUTTLE,

Chairman.

The following table shows the number of pupils belonging to the different schools at the close of the fall terms from the year 1895 to 1901 inclusive.

During this time the ninth grade has been in the High School building.

Winfield S. Durgin	Geo. W. McClellan	Franklin Wyman
Philip Eberhardt	Sylvester Mead	William B. Wood
Frank A. Fessenden	Thomas F. Meagher	

AUDITORS' REPORT.

The undersigned certify that we have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector of the Town of Arlington, also as Treasurer of the Arlington Water Works for the year 1901, up to October 31st, inclusive.

We find vouchers for all payments and the balance due from him to the town to be \$96,924.66. Of this amount, \$7,073.60 was a shortage in the cash which had been actually received and entered on the cash book. The balance, \$89,851.06 is for taxes for this and previous years which appear to be uncollected, or if collected, have never been accounted for on the Treasurer's books.

(Signed) ALFRED T. MARSTON,
 JAMES R. MANN,

ARLINGTON, Feb. 24, 1902.

Auditors.

The undersigned hereby certify that we have audited the books and accounts of HARVEY S. SEARS, as Treasurer and Collector, *pro tem*, of the Town of Arlington, also as Treasurer, *pro tem*, of the Arlington Water Works, for the year 1901, from November 1st to December 31st, inclusive, and find the same correct, with vouchers for all payments, and the balances of cash as stated by him.

(Signed) ALFRED T. MARSTON,
 JAMES R. MANN,

ARLINGTON, Feb. 24, 1902.

Auditors.

1. The first part of the paper is devoted to a general
discussion of the problem. It is shown that the
problem is of great importance and that it has
not been completely solved. The author then
presents a new method for solving the problem.
2. In the second part, the author applies the new
method to a specific case. It is shown that the
method is very effective and that it can be used
to solve a wide range of problems. The author
also discusses the advantages and disadvantages of
the method.

3. The third part of the paper is devoted to a
detailed analysis of the results. It is shown that
the method is very accurate and that it can be
used to solve a wide range of problems. The
author also discusses the advantages and
disadvantages of the method.

4. In the fourth part, the author discusses the
conclusions of the paper. It is shown that the
method is very effective and that it can be used
to solve a wide range of problems. The author
also discusses the advantages and disadvantages of
the method.

5. The fifth part of the paper is devoted to a
detailed analysis of the results. It is shown that
the method is very accurate and that it can be
used to solve a wide range of problems. The
author also discusses the advantages and
disadvantages of the method.

6. In the sixth part, the author discusses the
conclusions of the paper. It is shown that the
method is very effective and that it can be used
to solve a wide range of problems. The author
also discusses the advantages and disadvantages of
the method.

7. The seventh part of the paper is devoted to a
detailed analysis of the results. It is shown that
the method is very accurate and that it can be
used to solve a wide range of problems. The
author also discusses the advantages and
disadvantages of the method.

8. In the eighth part, the author discusses the
conclusions of the paper. It is shown that the
method is very effective and that it can be used
to solve a wide range of problems. The author
also discusses the advantages and disadvantages of
the method.

9. The ninth part of the paper is devoted to a
detailed analysis of the results. It is shown that
the method is very accurate and that it can be
used to solve a wide range of problems. The
author also discusses the advantages and
disadvantages of the method.

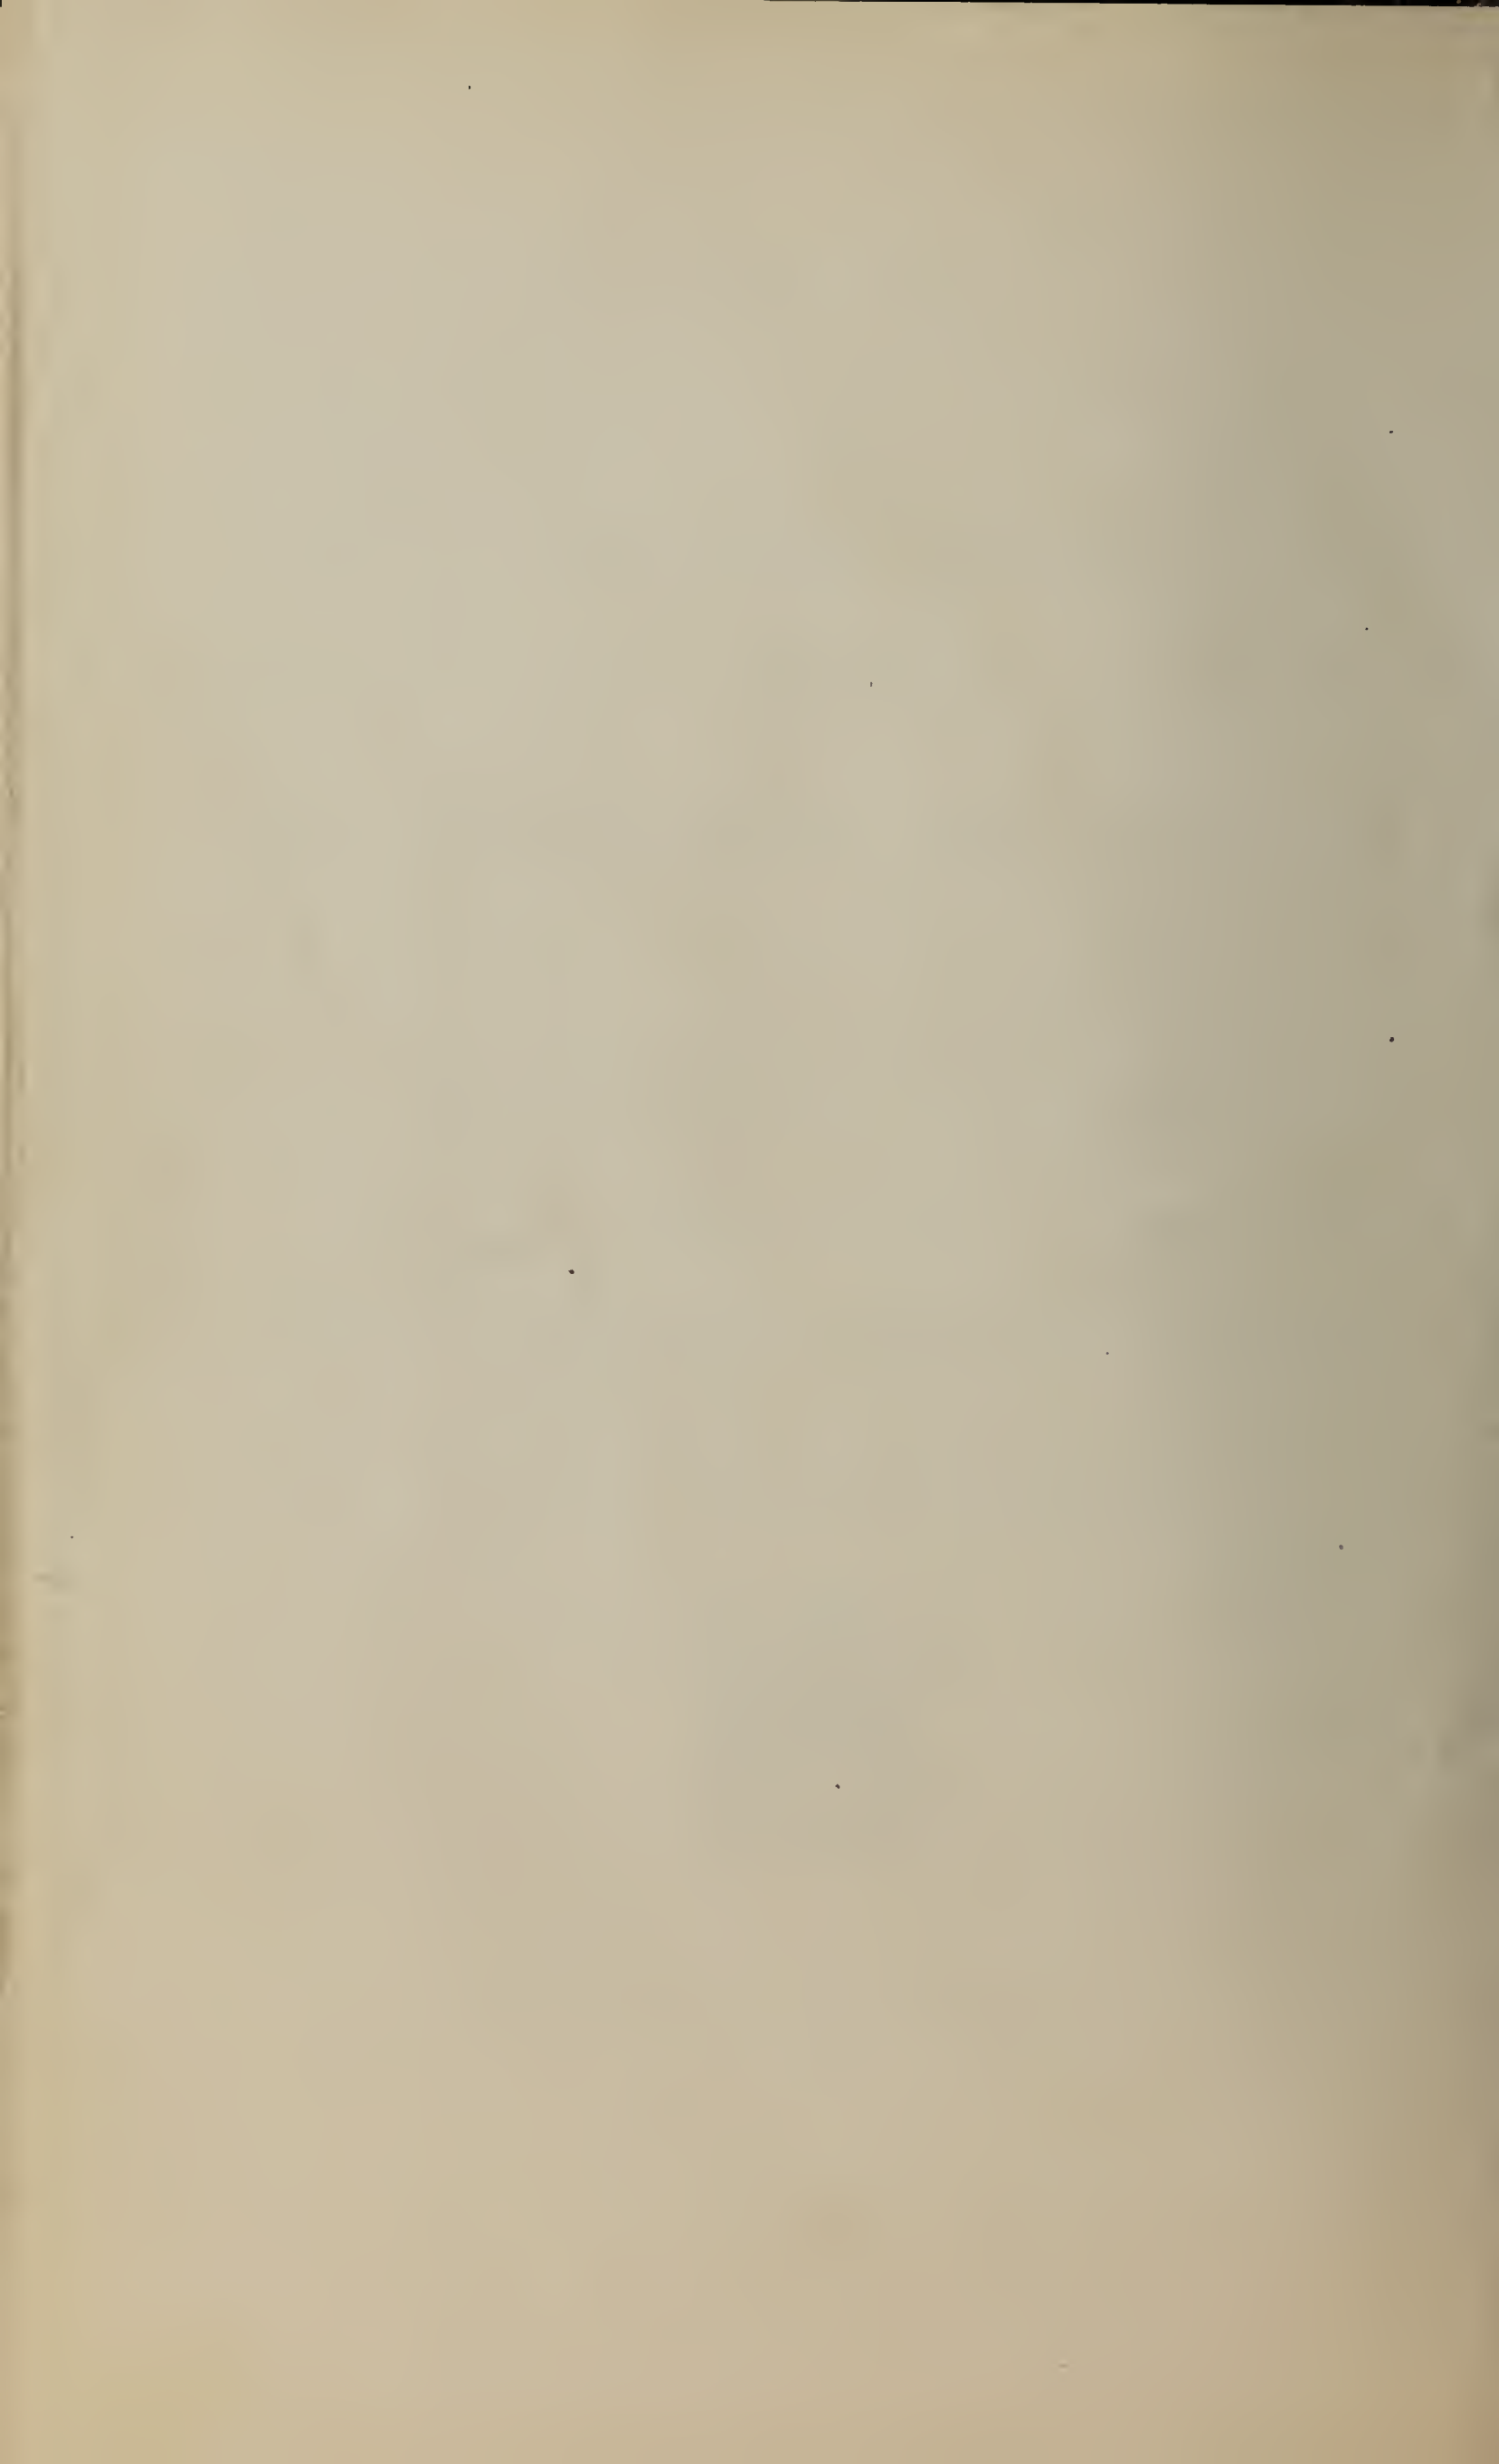

10. In the tenth part, the author discusses the
conclusions of the paper. It is shown that the
method is very effective and that it can be used
to solve a wide range of problems. The author
also discusses the advantages and disadvantages of
the method.

BY-LAWS OF THE TOWN OF ARLINGTON.

[Compiled by the Committee of Five as authorized by vote of the
Town November 24, 1902.]

ARTICLE I.

NOTIFICATION OF TOWN MEETINGS.

Every Town meeting shall be notified by posting a copy of the warrant calling the same, on the doors of the Town Hall, seven days, at least, before the day appointed for said meeting; and a printed notice containing the substance of the warrant shall be left at every dwelling house in the Town. Also notice of time of the meeting or of the date of its adjournment shall be published in the local papers.

ARTICLE II.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

SECTION 1. No final vote shall be re-considered except upon notice, for that purpose, made by one of the majority acting thereon, within fifteen minutes after such vote has been passed; and no article in the warrant shall be again taken into consideration after it has been disposed of, unless ordered by a vote of two-thirds of the voters present.

SEC. 2. No person shall speak more than twice upon any question, without first obtaining leave of the meeting, except for the correction of an error, or to make an explanation; and not until others who have not spoken upon the question shall speak, if they desire to.

SEC. 3. All questions submitted for the consideration of the Town, involving the expenditure of money, shall be in writing, and all other motions shall be reduced to writing, if required by the presiding officer.

SEC. 4. Every person speaking shall address the Chair, standing and uncovered.

SEC. 5. No vote, fixing the period for closing a ballot, shall be re-considered after such ballot shall have commenced;

but it may be in order to extend the period without such re-consideration.

SEC. 6. When a question is under debate, motions shall be received, to adjourn, to lie on the table, the previous question, to postpone indefinitely, to postpone to a time certain, to commit, or to amend. Which several motions shall have precedence in the order in which they are arranged. The first four shall be decided without debate.

SEC. 7. The duties of the presiding officer, not specially provided for by law, or by the foregoing rules, shall be determined by the rules of practice, contained in Cushing's Manual, so far as they are adapted to the condition and powers of the Town.

SEC. 8. On all questions submitted for the consideration of the Town involving the expenditure of money, the ballot and check list shall be used when requested by twelve or more legal voters present at the meeting.

ARTICLE III.

FINANCIAL YEAR.

The financial year of the Town shall begin with the first day of January in each year, and end with the thirty-first day of December, following.

ARTICLE IV.

ANNUAL TOWN MEETING.

The Annual Town Meeting shall be on the first Monday of March, in each year, and all reports of Town Officers shall be made at that time.

ARTICLE V.

REPORTS OF COMMITTEES.

No action shall be had at any Town meeting on the report of any Committee previously chosen, unless the same shall be specially notified in the warrant for calling said meeting.

ARTICLE VI.

MEETINGS OF TOWN OFFICERS.

The Selectmen, Overseers of the Poor, Surveyors of Highways, Treasurer, and Clerk, shall meet for the transaction of the business of their respective departments, at their rooms in the Town Hall, on the last Monday evening of each month.

ARTICLE VII.

POWER OF THE SELECTMEN TO BORROW MONEY.

The Selectmen may authorize the Treasurer to borrow money temporarily, on the credit of the Town, in anticipation of the collection of the taxes, should the same be necessary, and to give Town notes for the same, signed by him as Town Treasurer; said notes to be countersigned by the Selectmen.

ARTICLE VIII.

COLLECTION OF TAXES.

SECTION 1. The assessment of all taxes shall be completed, and a list of the same delivered to the Collector on or before the first day of August, and all tax bills shall be delivered on or before the twentieth day of August of each year.

SEC. 2. All single poll taxes shall be paid in fourteen days after demand. Interest shall be charged on all unpaid taxes after November first of the year in which they are assessed.

SEC. 3. The Collector shall collect all taxes, including street watering and apportioned sewer assessments, levied in any year, before June first of the following year.

SEC. 4. The Collector shall hold no other Town office.

ARTICLE IX.

PUBLIC WAYS.

SECTION 1. All persons intending to erect, repair or take down any building, on land abutting on any way which this

Town is obliged to keep in repair, and who desire to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall, ten days at least before so placing any building material or rubbish, give notice, in writing, to the Selectmen, of such wish, and thereupon the Selectmen may grant a permit to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands, and the security of the public allows such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building material or rubbish.

SEC. 2. Whoever shall use any portion of any way which the Town of Arlington is obliged to keep in repair, without the permit, in writing, of the Selectmen, as above provided, or having obtained such permit, shall fail to comply with the conditions thereof, shall forfeit and pay the sum of ten dollars for each offence, and shall also reimburse the Town for all damages and expenses which the Town may be compelled to pay by reason of the way being encumbered.

SEC. 3. Whoever shall move, or assist in moving, any building more than ten feet high, over any way in this Town, which this Town is obliged to keep in repair, without the written permit of the Selectmen being first obtained, or, having obtained such permit, shall not comply with the restrictions and provisions thereof, shall forfeit and pay the sum of twenty dollars for every such offence.

SEC. 4. Whoever shall suffer horses, goats, or grazing beasts, or swine to run at large in this Town, or to feed by the roadside, either with or without a keeper, shall forfeit and pay the sum of five dollars for every such offence.

SEC. 5. Whoever shall drive or draw any coach, cart, or wheel-barrow, handcart, velocipede, bicycle, or any carriages of burden or pleasure (excepting children's carriages drawn by hand, or children's velocipedes), upon any sidewalk, in the Town, or permit any horse, cattle, swine, sheep or goats, under

his or her care, to go upon any sidewalk in the Town, so as to interfere with the convenient use of the same by all passengers, shall forfeit and pay a sum of not less than two dollars, or more than twenty dollars for every such offence.

SEC. 6. Whoever shall behave himself in a rude or disorderly manner, or use any indecent, profane, or insulting language, in any public place in the Town, or near any dwelling house, or other building therein, or be, or remain upon any sidewalk, or upon any doorstep, portico, or other projection of any house or other building, not his own, to the annoyance or disturbance of any person, or by any noise, or other means, wantonly and designedly frighten any horse in any street, or other public place in the town, or shall throw stones, snowballs, sticks or other missiles, or kick at foot ball, or play at any game in which a ball is used, or fly any kite in the public ways in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 7. Whoever shall stand in any public way in such a manner as to obstruct a free passage for passengers, or shall make any bonfires in any public way or place in the Town, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 8. Whoever posts, affixes, or in any way attaches any poster, handbill, notice, advertisement or placard to or upon any post, wall, fence, building or structure not his own, without permission of the owner or proprietor of such post, wall, fence, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 9. Whoever paints, draws, or stamps any letter, notice, figure, advertisement, or marks upon or into any wall, fence, post, tree, building or structure not his own, without the permission of the owner of such wall, fence, post, tree, building or structure, or without said permission mars, defaces, or disfigures in any way such wall, fence, post, tree, building or structure, shall forfeit and pay for each offence, not less than three dollars, and not more than twenty dollars.

SEC. 10. Whoever shall place or cause to be placed upon any of the public ways of the Town, or shall place or cause to

be placed upon any public way, footpath or sidewalk within the Town, any lumber, iron, coal, trunks, bales, boxes, crates, casks, barrels, packages or other things, or shall otherwise obstruct such way by placing things therein, for more than fifteen minutes after being notified by a Constable, Police Officer, or the Selectmen, shall forfeit and pay for each offence, not less than two dollars, and not more than five dollars.

SEC. 11. Whenever complaint shall be made to the Selectmen that coasting on any street or sidewalk in the Town, has become dangerous to the public safety, they may post up a notice in some conspicuous place on the side or corner of any such street or sidewalk, forbidding all persons to coast upon the same; and if any person shall be found coasting upon the same after such notice, he shall forfeit and pay not less than one dollar, and not more than five dollars.

SEC. 12. No person shall tie or fasten any horse to, or have the same standing by any ornamental or shade tree in or near any of the streets, lanes or places of this Town, so near as to injure any unprotected tree, or wrongfully injure or abuse such tree in any manner; and whoever violates the provisions of this section, shall forfeit and pay not less than one dollar, and not more than ten dollars.

ARTICLE X.

PUBLIC HEALTH.

SECTION 1. No person shall drive, or cause to be driven, any cart or wagon containing night-soil or offal, or any cart or wagon used for that purpose, through any public way in the Town, between the hours of six A. M. and nine P. M., except an odorless tank, nor permit any such wagon or cart to stand, between said hours, in any street, lane or alley in said Town.

SEC. 2. No person shall keep any swine within a distance of fifty feet of any public way or place, or within a distance of one hundred feet of any dwelling house not his own, or within a distance of twenty-five feet of his own dwelling house. No person shall, after January 1, 1902, keep within the limits of the Town, more than five swine, exclusive of offspring less than four months old of said five swine. Whoever violates any of

the provisions of this section shall be punished by fine not exceeding twenty dollars for each offence.

SEC. 3. No person shall put or suffer to accumulate on his premises, any refuse, animal or vegetable matter, rubbish or filth, whereby any offensive or noxious stench or effluvia shall be created, and the health or comfort of the citizens be injuriously affected, or shall throw any such substances into the ponds, streams or brooks of the Town, or shall allow the contents of any vault or house drain, or the refuse of manufacturing or slaughtering process to drain into such ponds, streams or brooks.

SEC. 4. No person, without the license of the Board of Selectmen, shall throw into, or leave in, or upon any street, court, square, lane, alley, public square, public enclosure, vacant lot, or any pond or body of water within the limits of the Town, any dead animal, dirt, manure, oyster, clam or lobster shells, ashes, cinders, waste water, rubbish or filth of any kind, or any refuse animal or vegetable matter whatever.

SEC. 5. No vehicle used for collecting or conveying swill or house offal, shall be drawn over, or allowed to stand upon any sidewalks in this Town.

ARTICLE XI.

TRUANTS AND ABSENTEES.

SECTION 1. Any child between the ages of seven and fifteen years, who shall absent himself from the public school to which he is assigned, three times, within the period of one month, without sufficient excuse from his parent or guardian, shall, in each case, be deemed to be an habitual truant.

SEC. 2. Any child convicted of offending under the preceding by-law, shall be committed to the Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, for such time not exceeding two years, as the Court or Justice having, by law, jurisdiction may determine.

SEC. 3. The said Institution of Instruction and House of Reformation of Juvenile Offenders, in the city of Lowell, is hereby provided as the place for the confinement, discipline and instruction of habitual truants.

SEC. 4. It shall be the duty of every truant officer, before making any complaint for offences under these by-laws, to notify the offending child and his parent or guardian of the offence committed, and of the penalty thereof, and if the truant officer can obtain satisfactory pledges for the restraint and reformation of the child, he may, in his discretion, forbear to prosecute, so long as such pledges are faithfully observed and kept.

SEC. 5. All children between the ages of seven and fifteen years, wandering about in the streets and public places of this town, having no lawful occupation or business, not attending school, and growing up in ignorance, shall be punished by a fine not exceeding twenty dollars, or by commitment to any institution of instruction, house of reformation, or suitable situation, provided for the purpose under the authority of the tenth section of chapter 48th of the Public Statutes.

ARTICLE XII.

No person shall bathe or swim in Spy Pond, or in any public or exposed place in the Town, without wearing a proper covering to the body.

ARTICLE XIII.

SECTION 1. No person shall blast any rock or other substance with gunpowder, or other explosive material, at any place within fifty rods of any public way or building, without a written permit from the Board of Selectmen, specifying the terms and conditions on which such permit is granted.

SEC. 4. No person shall, except in the performance of some legal duty, discharge any firearms upon or across any public park, play ground, street or way, within the limits of the town, except by permission of the Board of Selectmen.

SEC. 5. No person shall be a dealer in, or keep a shop for the purchase, sale or barter of junk, old metals, or second hand articles, unless licensed by the Selectmen.

SEC. 6. No wagon shall be used for the collection of junk, metals, rags, or second hand articles, unless licensed by the Selectmen. Every such wagon shall bear conspicuously the

owner's name, and the number of the license, on the outside and on each side. Every license shall designate the person employed to drive such vehicle. Such driver shall not be changed without the consent of the Selectmen.

SEC. 7. It shall be the duty of the Town Clerk to keep a record of the name and residence of every peddler licensed by the Town.

SEC. 8. No person shall permit any team under his care or control to stand across any public highway or street in such a manner as to obstruct the travel over the same, and no person shall stop with any team in any public street at the side of or near to another team as to obstruct public travel, and no person shall stop with any team or carriage upon or across any cross-walk in any street or highway in the Town.

Any person who shall violate any provisions of these by-laws, or who shall refuse or neglect to obey any order of the Board of Health, duly issued under these by-laws, and directed to him and properly served on him, shall, in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars. (Note. This paragraph comprises the whole of Article XIII. as approved November 11, 1882.)

ARTICLE XIV.

Prosecutions for offences under these by-laws may be made by any Constable or Police Officer of the Town, and all fines shall be paid into the Town Treasury.

ARTICLE XV.

Upon the approval of the foregoing by-laws by the Superior Court, all by-laws heretofore existing, except the by-laws relating to the Public Library, the Cemeteries and the Fire Department, shall be annulled and repealed. (Note. This Article was approved November 11, 1882.)

ARTICLE XVI.

SECTION 1. Beginning with the year 1903, only one Auditor shall be elected. It shall be the duty of the Auditor, in addition to the duties imposed on him by law, to make state-

ments to the Selectmen, at regular intervals during a financial year, of the conditions of the several departments of the Town; to inspect all bills presented against the Town, see that they have the approval of the board or committee contracting the same, and are in proper form, indicate the account to which they are chargeable, and if there are available funds, shall transmit the same with his certificate to the Treasurer, and draw a warrant authorizing payment thereof; to examine the books of the Treasurer, Collector, Water Board, Sewer Department, and all departments holding funds or trust funds for the benefit of the Town and report at the next annual Town meeting in detail, under their respective heads, all the receipts and expenditures by the Town for the previous year. Said report shall be printed by the Selectmen with the annual reports of the Town Officers before the annual meeting. Said Auditor shall receive for his services such compensation as the Town shall determine. The term of the present Auditors shall terminate with the annual Town Meeting of 1903.

No money, except State and County taxes, and principal and interest of Town notes, shall be paid from the Town treasury without a warrant therefor, signed by the Auditor.

All promissory notes of the Town shall be signed by the Treasurer, and countersigned by the Selectmen.

On the first secular day of each month, and as often as the amount in his hands reaches five hundred dollars (\$500) or upwards the Collector shall pay over to the Treasurer of the Town all taxes by him collected, and shall on or before the first secular day of January in each year, make up his [annual account, and render the same to the Selectmen.

The Treasurer shall, on the first secular day of January, annually render to the Selectmen, in writing, a full account of all his receipts and disbursements for the financial year last past.

At the conclusion of any Town Meeting the Town Clerk shall send to the Auditor a certificate stating the amounts of the several appropriations made by the Town.

ARTICLE XVII.

The Treasurer shall hold no other Town office.

· BY-LAWS RELATING TO THE CONSTRUCTION OF BUILDINGS IN THE TOWN OF ARLINGTON.

[Approved by the Superior Court, April 22, 1901.]

SECTION 1. An Inspector of Buildings shall be appointed annually by the Selectmen during the month of March, and he shall continue to hold his office until his successor has been appointed and qualified. He shall not be interested in any contract or engagement for furnishing labor or materials or plans for the construction or alteration of any building in the Town. Until such time as the Town makes an appropriation for the salary of such Inspector, the Board of Selectmen shall perform the duties of the office.

SEC. 2. The Inspector shall have free access to and examine all buildings in course of construction, alteration and repair and see that all by-laws of the Town in relation thereto are complied with, and when necessary, shall take proper measures to secure such compliance. He shall make an annual report of his work to the Selectmen, with such recommendations as he may deem best. Upon hearing that any building is in a dangerous or unsafe condition, he shall examine it and if he deems it necessary, shall notify the owner, agent, or other party interested therein, to make it safe and secure, and if they do not comply with his notice, he shall notify the Selectmen of the facts. He shall from time to time examine all buildings used or proposed to be used for public assemblages or for school or manufacturing purposes, to see if the State requirements as to such buildings are complied with, and in case of any non-compliance he shall at once notify the State Inspector of Factories and Public Buildings. He shall perform such other duties as may be prescribed by these by-laws.

SEC. 3. No building except sheds, outhouses and farm buildings, other than dwellings, shall hereafter be erected in the Town of Arlington, and no addition to or alteration chang-

ing the character of any such building shall be made, unless the person intending to erect or make such alterations in such buildings shall, seven days at least before he proceeds to build or erect the same, or lay the foundation thereof, or to make the said alterations, or to do any act for carrying into execution his intention to do such things, file with the Inspector of Buildings notice in writing of his intention, with such plans and specifications or a full written description of the structure to be erected, in such form as may be approved by the Inspector.

SEC. 4. The Inspector shall give a permit for the erection of, addition to, or alteration above described, of any building after he has carefully inspected the plans, specifications, or descriptions thereof, and ascertained that it has sufficient strength, and that means of ingress and egress and of preventing spread of fire are sufficient, and that it otherwise conforms to the by-laws of the Town.

SEC. 5. The foundations of all buildings for dwelling, business or manufacturing purposes, shall be walls of masonry and piers of masonry or iron, and above a distance of twelve inches below the surface of the adjoining ground the walls shall be laid in mortar. All such wooden buildings not more than one story in height may, with the approval of the Inspector, be built wholly on piers or posts; and such wooden buildings not exceeding three stories in height may be so built, with the approval in writing of the Selectmen. The foundations of all such permanent buildings must rest on solid ground or levelled surfaces of solid rock, or on piles, concrete, or other solid substructure. Such foundation other than solid rock must be not less than four feet below the adjacent surface of the ground exposed to frost. All such wooden buildings shall be framed and constructed in a manner satisfactory to the Inspector, posts and girts in the exterior walls to be not less than 4x6 inches in size, and studding shall be not more than sixteen inches apart.

EXTERNAL WALLS.

SEC. 6. External walls of brick dwelling-houses hereafter to be erected in this Town, if not more than twelve feet in height above the foundation walls, shall be not less than

eight inches thick for their entire height; if two stories, and not more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the second floor, and not less than eight inches thick for the remaining height; and if three stories, and more than twenty-five feet in height, they shall be not less than twelve inches thick to the top of the third floor, and not less than eight inches thick for the remaining height.

SEC. 7. The external walls of all brick buildings, other than dwelling houses, to be hereafter erected in this Town, if not more than forty feet in height above the foundation walls, shall be not less than sixteen inches thick to the top of the upper floor, and not less than twelve inches thick for the remaining height; and if more than forty feet in height and not exceeding sixty feet in height, they shall be not less than twenty inches thick to the top of the second floor, and not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height. *PROVIDED, However,* that the external walls of brick buildings, not exceeding twenty-five feet in height, and covering an area not exceeding two thousand square feet, to be used for stables or light mechanical purposes, may be twelve inches thick.

SEC. 8. No buildings, except a manufactory, railway station, stable, church, school-house, hotel, or hall for public assemblies, shall hereafter be erected, and no existing building shall hereafter be altered or added to, so that they have a frontage of more than fifty feet, without one or more partition walls of brick or some other fire resisting material, extending from the bottom of the cellar, or from a foundation wall to the under side of the roof boarding, which shall be laid and be imbedded in mortar upon said wall. Such walls shall be not more than thirty feet apart throughout the length of the building. If said wall is build of brick, it shall be not less than eight inches thick for its entire height. No existing building having a frontage of more than fifty feet, shall be converted to a use not excepted by this section, without at least one partition wall, constructed as described in this section: *PROVIDED, However,* that any single dwelling house, intended for one family, may be extended more than fifty feet in one direction without such partition wall.

SEC. 9. All buildings hereafter erected which are to be used in whole or in part for business or manufacturing purposes, or as places for public meetings, shall be constructed of brick or stone, and have slate, metal or composition roof-covering and metal gutters, unless permission is otherwise given by the board of Selectmen.

SEC. 10. All buildings hereafter erected to be used as tenement houses, in excess of thirty feet in width, shall have brick partition walls on which floor-beams shall rest, not less than twelve inches thick for their entire height, and extending to the under side of the roof-boardings, which shall be laid and be imbedded in mortar upon said wall. Said walls shall be not more than twenty-five feet apart. All dwelling houses shall have a fire-proof partition wall between each set of up and down tenements.

SEC. 11. No wooden building to be used for a dwelling house shall exceed forty-five feet in height, and no portion of the external side-walls of any wooden building shall be placed at a less distance than five feet from the line of the lot upon which the building is to be located, or within ten feet of another wooden building, except where a brick external wall is substituted for a wooden wall, and of a thickness prescribed for external walls of brick buildings. The brick walls above required shall be built twelve inches above roof-boardings and covered with stone or iron.

SEC. 12. Party walls and all partition walls of brick, in all buildings other than dwelling houses hereafter to be erected in this Town with external walls not exceeding forty feet in height, shall be not less than sixteen inches thick to the top of the second floor, and not less than twelve inches thick for the remaining height, and, in buildings having external walls exceeding forty feet in height, said walls shall be not less than twenty inches thick to the top of the second floor, not less than sixteen inches thick to the top of the third floor, and not less than twelve inches thick for the remaining height.

SEC. 13. No opening or doorway shall be cut through or formed in a party or partition wall of any building, without a permit from the Inspector of Buildings, and every such doorway shall have its top, bottom and sides of stone, brick or iron, and

shall be closed by two doors, or sets of doors of wood, covered with metal, with an air space between them of at least four inches, and said doors shall be hung in wooden frames entirely covered with metal, or to iron hinges in brick or stone rabbets.

PIERS AND COLUMNS.

SEC. 14. All piers shall be built of the best quality of good, well-burnt, hard brick, laid in cement and sand mortar and well wet when laid in warm weather. Brick piers under lintels, girders or columns of brick buildings shall have a cap iron at least two inches thick, the full size of the pier. Brick piers and buttresses shall be bonded with through courses, leveled and bedded, each course, and where their foundations rest upon piles, a sufficient number shall be driven to insure a proper support

SEC. 15. Every pier, column, pillar or post resting on the earth shall have a base course of stone or concrete and if supporting walls of masonry, shall have for a footing course a broad leveller of granite or ledge stone, not less than twelve inches wider on all sides than the bottom area of said piers, columns, pillars or posts, and not less than twelve inches thick.

SEC. 16. Every metal column in a brick building shall rest on an iron plate of not less thickness than two inches. Wooden columns supporting girders and floors in such buildings shall rest on inch and a half iron plates with sockets to receive the foot of the columns. Metal columns placed one on the top of another shall have a plate at the top of each column, with projections on both sides to fit into cap and base of columns, to prevent slipping; and all columns shall have holes bored when and where directed by the Inspector, into and through the shell at right angles to the shaft, so as to show the thickness of shell. All bearing parts of columns and plates shall be turned or planed to true surfaces.

SEC. 17. No roof water from any building shall be allowed to flow over the sidewalk fronting it.

SEC. 18. All brick walls shall be built with proper bond, satisfactory to the Inspector, and all intersections of walls shall

be tied together with wrought iron straps every ten feet in height. Floor beams shall be anchored to brick walls on which they rest, and to each other, so as to form continuous ties across the building at least every ten feet.

SEC. 19. All floors shall be constructed to carry safely the following weights per square foot :

Dwellings	40 lbs.
Mercantile and Public Buildings,	100 “
Storehouses—Machine Shops,	200 “
Drill sheds, etc.,	200 “

CHIMNEYS AND HEATING APPARATUS.

SEC. 20. All chimneys hereafter erected shall be built from the ground, of brick, stone, or other fire-proof non-heat-conducting materials, and shall be built plumb, or nearly so, so as to be self-sustaining: PROVIDED, *However*, that brick flues may be securely built into the brick work of the walls of the building to which they are hung, when the walls are not less than twelve inches thick; and PROVIDED, ALSO, that, upon special permission first obtained from the Inspector, other forms of support may be used with such special safeguards as he may require, and provided, also that the matter of construction of chimneys in small wooden buildings, other than dwelling houses, not more than one story and a half in height, shall be left to the decision of the Inspector of Buildings, but must be constructed in accordance with his instructions and to his satisfaction.

SEC. 21. All brick chimney-flues shall be built of hard burned brick and be smoothly plastered inside with mortar from top to bottom, during the course of construction, and also outside below the roofing after having been examined and approved by the Inspector of Buildings; except that exposed portions of said chimneys may be left unplastered upon the outside. Said chimneys shall be topped out with brick or stone, laid in cement, and the topping out shall not have more than two inches projection, unless the bricks are covered by a cap of

stone or other non-combustible material in one piece, properly secured, and approved by the Inspector; and in no case shall a nail be driven into the masonry of any flue.

SEC. 22. No smoke-pipe in any building with wooden or combustible floors or ceilings shall hereafter enter any flue except at a distance not less than twelve inches from said floor or ceiling; and in all cases where smoke-pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by a soapstone ring having a thickness radial to said pipe of not less than two inches, and extending through said partition, and in cases where smoke-pipes pass through wood work of any kind in such near proximity to the brick work of the flue that the space between said wood work and flue is inaccessible, said pipe shall be guarded by a soapstone ring or thimble, or its equivalent, having a thickness of at least two inches, and extending from the outer face of said wood work to a point at least two inches within the brick work of the flue, in which it shall be firmly set.

SEC. 23. All hearths shall be supported upon trimmer arches of brick or stone, or upon bars of iron supporting a bed of brick work and shall be at least twelve inches longer than the width of the fire-place openings and at least eighteen inches wide in front of the chimney breast. Wooden centering supporting a trimmer arch shall be removed before plastering.

SEC. 24. Brick work back of all grates, fireplaces and ranges shall be not less than eight inches thick, and when it adjoins a wooden or stud partition shall have at least two four-inch walls, with at least a two-inch air space between. No wood work shall be secured to the brick work of any flue. Open fire-places shall have fire-proof foundations.

SEC. 25 *a*, No furnace or range set in masonry shall hereafter be placed, or its location changed in any building, without a permit from the Inspector of Buildings, who shall prescribe such regulation for the setting or placing thereof as in his judgment the public safety may require.

b, The top of every heating furnace or steam boiler shall be kept at least one foot below the lowest part of the ceiling or floor next above it and such protective covering shall be placed on such ceiling as the Inspector may require.

- c, All register boxes shall be set in soapstone or similar borders, not less than two inches in width and said boxes back of such border shall be surrounded by an open space of not less than one inch in all directions, and when required by the Inspector the timbers and flooring surrounding the boxes shall be protected by sheet metal as he may direct.
- d, All elevator wells and light shafts, unless built of brick, must be filled in flush between the wooden studs with fire-proof materials, or lined with metal or plastered on metallic lathing, as may be directed by the Inspector, and all wood work inside of such wells or shafts, be lined with tin plate lock-jointed.
- e, Where floor beams rest on partition caps or on girders, wall girts or wooden sills, fill in between such beams, from the caps, girders, girts or sills to the lining floor above, solid with brick and mortar or other fire-proof material.
- f, When floor beams in frame buildings rest on ledger boards, fire-stop thoroughly at each floor, with brick and mortar resting on bridging pieces cut in between the studs, or, where practicable, on the ends of lining floor.
- g, In brick buildings the space between the furrings on the outside walls or brick partitions should be filled flush with mortar for a space of five inches in width above and below the floor beams of each story.
- h, Where basement or other flights of stairs are enclosed by partitions of brick or wood, the spaces between the studs or wall furrings must be so fire-stopped with brick or mortar as to effectually prevent any fire from passing up between such studs or furring back of the stair stringers.
- i, All flights of stairs between two floors must have two smoke stops built between the stringers and properly constructed.
- j, No pipes for conveying hot air or steam must be placed nearer than one inch to any wood work unless protected to the satisfaction of the Inspector by suitable guards or casings of incombustible material.
- k, No wooden flue or air duct of any description can be used for heating or ventilating purposes, except cold air inlets to heating apparatus.

- l*, A space of at least one inch to be left between all wood work and the chimneys, also around all hot-air, steam and hot-water pipes; these spaces around chimneys and pipes, where they pass through floors, to be stopped with metal or other fire-proof material, smoke-tight. Steam and hot-water pipes to have metal sleeves and collars.
- m*, All channels and pockets for gas, water and soil-pipes to be made smoke-tight at each floor.
- n*, The space around all metal or brick ventilating ducts must be fire-stopped at each floor with metal or other fire-proof material, as approved by the Inspector.
- o*, Where a building is occupied above the first floor for tenements or a lodging house, and the lower story is occupied for stores, or other purposes not connected with the upper floors, the stairways leading to such upper floors must be enclosed with brick walls or with wooden partitions filled solid with brick laid in mortar, or other fire-proof material, and plastered on both sides on metallic lathing, and all doors in such partition covered with tin plate, lock-jointed.

The provisions of paragraphs d, e, f, h, i, k, m, n, shall not apply to any wooden dwelling house when occupied by only one family and which is situated more than twenty-five feet from any other building.

SEC. 26. No bay window, balcony or other prejection, except cornices, shall be built upon the front wall of any building so as to project over the line of the street, except upon written permit of the Selectmen.

SAFEGUARDS DURING BUILDING OPERATIONS

SEC. 27. Whenever any person is about to erect or alter the exterior walls of a building, within five feet of the line of a street, he shall cause the portion of the site of the building bordering upon the street to be enclosed by a proper fence not less than four feet high, and at least five feet from the line of such building; and the fence shall be made as much higher as the Inspector of Buildings shall direct, and the same shall be maintained until all liability to accident from falling material

ceases ; he shall also maintain a proper walk satisfactory to the Inspector, around said fence, as long as the sidewalk is obstructed, and he shall maintain proper lights, if so required by the Inspector, at both ends of such enclosed space from sunset to sunrise. In erecting any building, no person shall place, deposit or suffer to remain in any street or highway any lumber or other building material, rubbish, or remains of any old building, for a longer period than may be necessary for the work which may be going on ; and in case such material, rubbish, or remains of an old building, shall necessarily remain after dark, a sufficient light shall be placed over or near the same, and kept from sunset to sunrise. All rubbish from the erecting or repairing of any building, or the removal of an old building shall be carried away by the person so erecting or repairing or removing such building, at such time as the Superintendent of Streets may direct ; and in case of neglect or refusal so to do, it shall be removed by the Superintendent of Streets, at the expense of such person. Any person violating any provision of this section shall be liable to a penalty of five dollars.

SEC. 28. Proper plans shall be prepared under direction of the Selectmen showing a proper numbering of buildings on all streets of the Town and the Inspector shall send to the owner or person having control of every new building a written notice stating the number assigned by the Selectmen to such building, and directing that the said number be affixed or inscribed in a proper place on said building, and all other numbers, if any, removed within one week from the receipt of notice. Whenever a building fronting on a street is found not having a number, or having a wrong number affixed or inscribed on it, then Inspector shall send a similar notice to the owner or person having control of it. Any owner or person in control of such building refusing or neglecting to comply with the directions contained in any such notice shall be liable to a fine of not more than twenty dollars.

SEC. 29. All questions as to the intent and meaning of the by-laws relating to the construction of buildings shall be decided by the Inspector, provided that any person dissatisfied with or aggrieved by any requirement or decision of the

Inspector may appeal to the Selectmen and their decision, after a hearing at which the Inspector shall be given an opportunity to be heard, shall be final.

SEC. 30. In these by-laws the following terms shall have the meanings respectively assigned to them : —

“ Alteration ” means any change or addition.

“ Cellar ” means a basement or lower story of which one-half or more of the height from the floor to the ceiling is below the level of the land adjoining.

“ Foundation ” means that portion of a wall below the level of the street curb, and where the wall is not on a street, that portion of the wall below the level of the highest ground next to the wall; but if under party or partition walls, may be constructed by the Inspector to mean that portion below the cellar floor.

“ Chimney ” shall apply to any permanent or fixed flues or passages built into any building for conveying away the products of combustion from furnaces, stoves, boilers, ranges or fire-places.

“ Inspector ” means the Inspector of Buildings of the Town of Arlington.

“ Party wall ” means every wall used, or built in order to be used, as a separation of two or more buildings.

“ Partition wall ” means any interior wall of masonry in a building.

“ External wall ” means every outer wall or vertical enclosure of a building other than a party wall.

“ Repairs ” means the reconstruction or renewal of any existing part of a building or of its fixtures or appurtenances, by which the strength or fire-risk is not affected or modified, and not made in the opinion of the Inspector for the purpose of converting the building in whole or in part to a new use.

“ Tenement house ” means a building which, or any portion of which, is occupied, or intended to be occupied, as a dwelling by more than three families living independently of one another and doing their cooking upon the premises; or by more than two families above the second floor, so living and cooking

“ Thickness ” of a wall means the minimum of thickness of such wall.

SEC. 31. Whoever violates any of the provisions of these by-laws shall be liable to a penalty of not more than one hundred dollars unless another penalty is specifically provided herein.

SEC. 32. The provisions of these by-laws shall not apply to buildings and structures owned or occupied by the United States or by the State of Massachusetts, nor to bridges.

FIRE LIMITS.

All buildings hereinafter built or enlarged, fronting on the following street described lines, shall be built of brick, stone

or other incombustible material. Beginning at the north-easterly corner of Swan and Pleasant streets, thence running north-easterly to the south-easterly corner of Pleasant street and Massachusetts avenue; thence south-easterly on the southerly line of Massachusetts avenue, to a point opposite the Soldiers' Monument. Beginning again at a point in the northerly line of Broadway opposite the Soldiers' Monument and running north-westerly along the north-easterly lines of Broadway and Massachusetts avenue to Central street.

REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the year ending December 31, 1902 : —

Mr. Timothy J. Donahue was appointed Assistant Engineer of the Fire Department.

Mr. Lucian C. Tyler was appointed Inspector of Buildings.

Mr. Charles F. Lusk was appointed Constable under Chap. 25, Sec. 87, Revised Laws.

All other appointments were the same as last year.

For the detail work accomplished by these officials, we refer you to their reports to the Selectmen.

A trench was dug in the sidewalk on the westerly side of Massachusetts avenue from Appleton street to Park avenue, and a small drain pipe was laid. The trench was then filled with large stones, then with finer and crushed stones, and then covered with earth. The purpose of this trench is to take off the water in winter which comes from the ground for nearly the whole distance and makes a sheet of ice on the street in places to the rails of the car-track. The ice remained as long as cold weather lasted and made it dangerous to travel. The trench answered its purpose very well. There is a similar place at the junction of Paul Revere Road and Massachusetts Avenue which should be taken care of.

The bond of the Treasurer and Collector for \$20,000 was given by the United States Fidelity and Guaranty Company and was approved March 22nd.

The largest amount outstanding at any one time, of money borrowed in anticipation of taxes of the year 1902, was \$85,000. This has all been paid. The only outstanding note on this

account at the close of the year is a note of \$20,000 dated Dec. 16 and given for six months.

The Treasurer has been handicapped in his work during the year by a lack of clerical assistance and still more by the use of his books by the experts employed by the Committee of Five. This of course could not very well be helped.

The street numbering has been revised to some extent and about 475 notices were sent out to this effect.

We recommend an increase in the salary of the Sealer of Weights and Measures.

The work of the Health Department has been done by the Highway Department. We think it advisable to collect paper and such combustible material separately from ashes, and that a specially constructed wagon be used therefor. Four hundred dollars have been received from the sale of offal and should be placed to the credit of the Health Department.

The purchase and transfer of additional playground for Locke School has been consummated.

STREET WATERING.

The streets have been watered in the same manner as last year. The cost to the abutters was 2 1-3 cents per front foot.

STREET SIGNS.

A number of signs have been repainted and new ones placed.

COAL.

All departments using coal will be put to extra expense the coming year on account of the high price of that article.

BOARD OF SURVEY.

Fourteen petitions have been received for the approval of plans contemplating the laying out and construction of streets and seventeen hearings given on the same. Lines and grades were established on thirteen streets. The Board also in accordance with Sec. 3, Chapter 249, Acts 1897, established lines and grades on four other streets after giving six hearings. See Town Engineer's report for detail. No appropriation was made by the Town for this department, but all expenses were to be charged to incidentals.

One hundred and thirty dollars and thirty-five cents has been expended for engineering.

CRESCENT HILL AVENUE.

Four petitions were received by the Selectmen asking the Board to lay out certain streets on Crescent Hill as Town ways and bring the same in regular form before the Town for acceptance.

Action on Crescent Hill avenue appeared to be the most urgent and after two well attended hearings this street was laid out as a Town way under the Betterment Act, from Park place to a point 200 feet beyond Montague street.

December 1, 1902, it was accepted by the Town as laid out by the Selectmen and \$2,500 voted to construct the same.

IRVING STREET EXTENSION.

The extension of Irving street which was authorized November 18, 1901, by an appropriation of \$2,100 was carried out. The cost for construction alone was \$1,170.64; for damages awarded \$1,220; total, \$2,390.64. The assessments for betterments amounted to \$1,260, nearly all of which has been paid.

ALMSHOUSE.

During the year eleven inmates have been cared for. Of these five were admitted, two sent to Danvers Insane Asylum, one died and two were discharged.

At present (December 31) there are five males and one female cared for.

The number of tramps lodged and fed during the year is 341 males and one female.

Mr. and Mrs. John B. Tay have been in charge and rendered the same faithful services. Asphalt floor has been laid in one of the rooms.

On January 9 fires occurred in the stable and shed. The loss on the buildings was \$1,054. The loss to the Highway Department was \$620. Insurance to cover the loss was received to the amount of \$474.

As the stable and outbuildings are used almost entirely by the Highway Department, one would recommend that all expenditures for keeping the same in repair in the future be charged to the Highway appropriation.

POOR OUTSIDE THE ALMSHOUSE.

The calls here are always many and must be met with sympathetic and reasonable liberality. The past year has been exceptional in the high price of provisions and fuel and thus added much to expenditures.

Partial support has been given to 108 residents, not including those aided here but charged to other municipalities.

Five persons having a settlement in Arlington but residing elsewhere have been assisted.

Full support has been given to fifteen in insane hospitals and one in Feeble-Minded School.

STREET LIGHTS.

As authorized by the Town a new contract was made with the Somerville Electric Light Company. The contract was for five years and went into effect May 1, 1902. The Company agrees to furnish 104 or more arc lights for \$73 each per year, and 189 or more incandescent lights of 32 candle power for \$23.50 each per year.

All arc lights to be of the alternating enclosed type with electrical energy of 422 Watts on the average. Four new arcs and twenty new incandescents have been installed, making the total number at present as above. All arcs have been changed to those of the enclosed pattern. The service is very satisfactory. Notwithstanding the number of lights installed is all the appropriation allows, we frequently have requests for additional lights, some of which are very urgent but cannot be provided because of no funds for this purpose.

Mr. Reuben LeBaron has continued in charge of the apparatus for testing the current.

INSPECTOR OF BUILDINGS.

May 17 the Selectmen appointed an Inspector of Buildings as authorized by vote of the Town.

Eighty-five permits have been granted during the year, twelve of which were issued previous to the Inspector's appointment. The duties of this office are such and so important that none but competent and salaried appointees can render service reasonably demanded by the Town. The value of buildings and alterations inspected is estimated at \$165,800. The construction of these buildings is no doubt more substantial and the work of a higher grade because of efficient enforcement of our building laws.

The inspection is very helpful to the assessors in placing value, and must be of interest to parties desiring to purchase.

We recommend the continuance of a salaried officer. For details see Inspector's report.

SURFACE DRAINS.

The work laid out three years ago for storm drains has been completed and the original appropriation therefor expended, together with an overdraft of \$199.49.

Storm drains have been constructed the past year in Kensington park, Appleton street and Florence avenue.

For detail see report of Superintendent of Streets.

The relief afforded by these drains to surface water in times of storm and of melting snow and ice has been what was anticipated and the expenditure fully justified.

TOWN HOUSE.

This building is in good order, with the exception of the rooms mentioned in our report for 1901. We would recommend that the rooms be repaired at an expense not to exceed \$80, so that the main offices shall have a respectable appearance.

EDWIN S. FARMER,

GEORGE I. DOE,

WALTER CROSBY,

Selectmen.

LIST OF JURORS.

LIST OF JURORS OF THE TOWN OF ARLINGTON, REVISED BY THE
SELECTMEN, JANUARY, 1903.

Allen, Abbott, Farmer.
Allen, Vinal, Grocer.
Allen, Frank C., Salesman.

Bailey, Jas. A., Retired.
Barker, Simeon, Carpenter.
Bartlett, Alfred H., Wholesale Druggist.
Bradley, Wm. H., Polisher.
Bradley, Leander D., Hardware.
Bennett, John N., Carpenter.
Bitzer, Jacob, Piano Case Maker.
Bott, Frank, Wholesale Grocer.

Winn, William N., Coal Dealer.
Wyman, Charles P., Retired.
Wyman, Joseph P., Salesman.
Wyman, Franklin, Farmer.
Wood, William B., Manufacturer.
Welch, Thomas F., Cornice Maker.

REPORT OF THE CHIEF OF POLICE.

To the Honorable Board of Selectmen of the Town of Arlington :

GENTLEMEN :— I have the honor to submit herewith the annual report of the conditions and doings of the Police Department for the year ending December 31, 1902.

ROSTER.

CHIEF.

Alonzo S. Harriman, appointed Chief May 1, 1894.

PATROLMEN.

Garrett Barry,	appointed	November, 1876..
Daniel M. Hooley,	“	May 1, 1887.
Andrew Irwin,	“	April 1, 1889..
John Duffy,	“	July 20, 1891.
James E. Whitten,	“	March 30, 1896..
Charles H. Woods,	“	March 30, 1896.
Fred E. Smith,	“	April 1, 1899.
Robert H. Fall,	“	July 8, 1901.

The Chief and two patrolmen are on duty in the day time ; during the night six patrolmen are on duty.

Appropriation	\$8,982 50
Receipts	5 00
Expenditures	8,983 19

For a detailed statement of expenditures see report of Town Treasurer.

The expenses of the Department have been kept to a minimum.. No expenses when it could be avoided. No special officers were on duty the past summer only for the night before the 4th of July and the day of July 4th, as the appropriation would not allow it.

ARRESTS.

Whole number of arrests for the year	.	.	.	155
Males	.	.	.	149
Females	.	.	.	6
Adults	.	.	.	132
Minors	.	.	.	23
Residents	.	.	.	75
Non-residents	.	.	.	80
Foreign Born	.	.	.	63
American Born	.	.	.	92

The offences for which arrests have been made are as follows :

Arson	1
Assault	10
Common drunkard	2
Capias	2
Default	3
Deserter	1
Defacing private property	1
Disturbing public peace	18
Drunkenness	60
False pretence	2
Insane	3
Larceny	11
Malicious mischief	1
Manslaughter	1
Non-support	2
Stealing a ride	1
Trespass	20
Tramp	2
Vagrant	1
Violation game law	2

Violation Town by-laws	7
Violation liquor law	3
Walking upon railroad tracks	1
Total	<u>155</u>

LODGERS.

Whole number of lodgers	380
Males	379
Females	1
Adults	378
Minors	2
White	378
Colored	2
Foreign born	187
American born	193

213 less than the year 1901.

MISCELLANEOUS DUTIES PERFORMED.

Accidents reported	31
Buildings found open and secured	64
Cases investigated	61
Contagious diseases reported	111
Dead bodies cared for	5
Dead animals found	3
Defective streets and sidewalks	11
Defective water pipes	8
Defective wires, electric and telephone	18
Defective electric lights reported	1,060
Dogs killed	16
Fire alarms	31
Fires extinguished without alarm	3

CHIEF OF POLICE.

43

Lanterns hung in dangerous places	26
Lost children cared for	19
Sick and injured persons cared for	11
Stray teams cared for	10
Street obstructions removed	8
Search warrants served	2
Amount of property reported stolen	\$530 00
Amount of property recovered	372 00
Amount of property reported lost	120 50
Amount of property reported found	120 00

COURT RECORD.

Number of days in attendance at Third District Court	158
Number of persons paying fines	66
Committed for non-payment of fines	15
Discharges	31
Placed on file	9
Probation	3
State Farm	7
Insane Hospital	5
To Grand Jury	6
Turned over to other officers	7
House of Correction	3
Sherburne Prison	1
To keep the peace	1
Continued	1
Total	<hr/> 155

RECOMMENDATION.

I again recommend that an increase of one officer be made to the force. An officer should be on duty in the station during

all hours of the night, have full charge of the night force, be in readiness to receive all messages, either by telephone or otherwise, and have general charge from 6 P. M. until relieved in the morning by the Chief.

PATROL WAGON.

About six months ago a combination ambulance and patrol wagon was tendered to me for the use of the department, to be used for an ambulance only. It has been called into service quite a number of times in accident cases, also in taking sick and injured persons to the hospital. It is said to be one of the best wagons in the State, and, as I understand, is to be given to the department, providing that a horse is furnished by the Town to be in readiness at all times for a patrol wagon and ambulance, also to convey the prisoners to the Court, etc.

CONCLUSION.

In concluding this report, I desire to thank your Honorable Board and all others who have kindly assisted me in the performance of my duties. Also, I would thank the members of the department for the prompt and efficient manner in which they have discharged their duties.

Respectfully submitted,

ALONZO S. HARRIMAN,
Chief of Police.

REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen : —

GENTLEMEN : — I respectfully submit to you my annual report of the Fire Department, for the year ending December 31, 1902 ; also offering a few suggestions which I deem will be of importance to the department and Town.

The department has, by its efficiency and promptness, averted some heavy fire losses, three in particular which I will mention : The Poor Farm property, the Hodgdon Estate on Massachusetts Avenue, and the Swan Block, on Massachusetts Avenue. These three were the makings of serious conflagrations.

FIRES AND ALARMS.

The department has answered 29 bell and 21 still or telephone calls, as follows : —

BELL ALARMS.

January 1. Box 36, 12.30 A. M.

Fruit Store. Oil stove explosion. No damage.

January 7. Box 36, 9.15 A. M.

Naptha barrel. Rear Finance Block. No damage.

January 9. Box 43, 7.55 P. M.

Poor Farm property. Value on buildings, \$3,700. Insurance of buildings, \$2,700. Value on contents, \$5,000. Insurance on contents, \$3,360. Loss on buildings, \$1,054. Insurance paid on buildings, \$354. Loss on contents, \$620. Insurance paid on contents, \$120.

February 10. Box 54, 6.02 P. M.

M. M. Adams, dwelling house. Lamp explosion. Value on buildings, \$1,500 Insurance on buildings, \$2,000. Loss on buildings, \$15.00 Value of contents, \$500 Loss of contents, \$5.00.

February 12. Box 54, 9.59 P. M.

Waiting Room, Boston & Lowell R. R. Oil rags caught from stove. Value of buildings, \$4,000. Insurance on building, \$4,000. Loss on buildings, \$5.00. Value of contents, \$2,000. No insurance on contents.

February 13. Box 54, 7.09 P. M.

W. D. Rockwood, dwelling house. Upset lamp. Value on buildings, \$3,000. Insurance on buildings, \$3,000. No loss on building. Value of contents, \$2,500. Insurance on contents, \$1,000. Loss on contents, \$78.75.

March 11. Box 54, 9.20 A. M.

John Connors. Chimney fire. No loss.

March 16. Box 26, 7.20 P. M.

Lewis Avenue. House owned by A. P. Gage. Lamp explosion. Value of buildings, \$3,200. Insurance on building, \$3,000. No loss on building. Value of contents, \$4,000. Insurance on contents, \$3,000. Loss on contents, \$15.50.

March 22. Box 21, 6.15 P. M.

House of David Scanlan. Match dropped in wood box. Value of building, \$2,500. Insurance on building, \$2,000. Loss on building, \$22.00. Value of contents, \$1,900. Insurance on contents, \$1,900. Insurance on contents, \$500. No loss on contents.

April 9. Box 41, 8.45 A. M.

House of Daniel McCarthy. Chimney fire.

April 13. Box 52, 8.23 P. M.

Dwelling, rear Crescent Hill, Estate of J. P. Wyman. Value of building, \$750. Insurance on building, \$500. Loss on building, \$350.

April 29. Box 43, 12.18 P. M.

Boston Chrome Company. Value on building, \$6,000. Insurance on building, \$4,800. Loss on building, \$50. Value of contents, \$9,000. Insurance on contents, \$9,000. No loss on contents.

April 30. Box 36, 1.10 A. M.

Estate R. L. Hodgdon, Massachusetts Avenue. Value of building, \$1,000. Insurance on building, \$800. Loss on building, \$475. Value of contents, \$850. Insurance on contents, \$575. Loss on contents, \$288.

May 11. Box 23, 8.38 P. M.

Fence of G. D. Moore, Broadway. No loss.

May 22. Box 16, 7.04 P. M.

Barn at Mrs. Louisa Cook's, 280 Massachusetts Avenue. Value of building, \$500. Insurance on building, \$300. Loss on building, \$3. Value of contents, \$100. No insurance on contents.

May 30. Box 52, 1 37 P. M.

Barn, rear Crescent Hill. Estate J. P. Wyman. Value of buildings, \$50. Insurance on buildings, \$300. Loss on buildings, \$225.

June 9. Box 16, 8.55 P. M.

Barn at John J. Lyons, 183 Broadway. Value of building, \$500. Insurance on building, \$400. Loss on building, \$400. Value of contents, \$1,200. Insurance on contents, \$1,000. Loss on contents, \$462.

July 4. Box 162, 12.46 A. M.

Play house. Estate J. P. Wyman. No loss.

July 4. Box 41, 2.10 A. M.

Barn of T. J. Hurley, Massachusetts Avenue. Value of building, \$50. Insurance on building, \$300. Loss on building, \$200. Value of contents, \$550. No insurance on contents.

July 4. Box 14, 3.10 A. M.

Hen house, Henderson Bros. No loss.

July 4. Box 15, 4 A. M.

Barn. Estate J. P. Wyman, Massachusetts Avenue. Value of building, \$200. No insurance.

August 30. Box 27, 11.56 A. M.

Fowle's Arlington Mills. No loss.

October 9. Box 36, 9.11 P. M.

Swan Block, W. W. Robertson's store. Value of building, \$16,000. Insurance on building, \$15,000. No loss on building. Value of contents, \$2,000. Insurance on contents, \$800. Loss on contents, \$30.

November 16. Box 43, 5.30 P. M.

J. B. Davie's house. Lamp upset. No loss.

November 19. Box 13, 12.21 P. M.

Patrick Cashman. Chimney fire. No loss.

November 24. Box 13, 9.46 P. M.

Shed owned by Helen P. Lewis, Teel street. Value of building, \$600. Insurance on building, \$500. Loss on building, \$12.

November 15. Box 15, 5.58 P. M.

Daniel Lyon's hay stack. Loss \$25.00.

December 5. Box 512, 8 44 P. M.

Boston Elevated Railway car house. Value of buildings, \$55,000. Insurance on building, \$49,000. Loss on building, \$15. Value of contents, \$200,000. Insurance on contents, \$160,000. No loss on contents.

December 5. Box 512, 9.52 P. M.

Needless.

Robbins Spring Water Company.	December 9. 4.25 P. M.
Thawing pipe.	

None of these fires were beyond the building in which they originated.

MEMBERSHIP.

The membership of the department is the same as in my last report. Mr. Frank P. Winn did not receive re-appointment by your Board, and the vacancy was filled by Capt. Timothy J. Donahue, who had had long service in the department. Mr. George W. W. Sears is Clerk of the Board. Two members have been discharged from the department for missing three consecutive alarms. Our Board adopted this rule: "That any member missing three successive alarms may be cause for discharge." While this is overlooked in some members who have had a good previous record, this rule applies to those who wish to only answer the roll-call, and captains not reporting such members will receive severe censure.

APPARATUS.

Very few repairs have been made on the apparatus during the past year. Hose 1 should have a wagon for exercise, as I do not consider it economy to exercise in the hose wagons.

BUILDINGS.

No money has been expended on the buildings, except for a few minor repairs. Extensive repairs should be made in the near future on Hose 2 building to make it a convenient and comfortable house.

HOSE.

We have 6,600 feet of hose. One thousand feet of new was purchased this year, and the most of the balance is in very fair condition. Your committee recommended to the Town the expenditure of \$500 for hose and the purchase of an Eastern Deluge Set. Our Board, after getting figures from several hose manufacturers, found they could make better terms by purchasing 1,000 feet, which was actually needed, so 1,000 feet was purchased for \$580. An Eastman Set was also purchased which I think will be indispensable to the Town in case of heavy fire. The cost of repairing some of the old hose has been quite expensive, and we have been obliged to condemn some hose this year.

HORSES.

The department has nine horses. The pair of horses at Hose 1 house are very old, having been in the department fifteen or sixteen years, and are liable at any time to drop out. Some little sickness has prevailed among the horses this year. They have consumed 912 bushels of grain, 39,471 lbs. of hay, 2,979 lbs. of straw, and 40 lbs. of salt, making the cost of total consumption \$868.56, an average of \$1.85 per horse a week. Owing to the high prices of feed, I think this is a very good showing.

FIRE ALARMS.

This branch of the department has been under the supervision of R. W. LeBaron, and has given us excellent results. The details of the same will be found in his report.

RELIEF ASSOCIATION.

The association is in good standing. We have been fortunate in losing no members by death, although the expense for sickness gradually increases.

SUGGESTIONS.

For better fire protection, I would suggest that the high water service be extended farther down the Avenue, say as far as the Wm. T. Wood Ice Tool Factory, and down Medford Street to better protect the Catholic Church and St. Joseph's School, also that it be extended over Pleasant Street as far as Wellington or Addison Street. I would suggest that those people having telephones in their residence or place of business, in case of fire, would call up the central fire station, No. 64-3, stating the nearest box, as there is a box at this station which will ring in any box number, and with arrangements made with Mr. Clark of the Telephone Exchange, we have the right of way over all other business.

When people understand this thoroughly, it will save much valuable time in giving an alarm. There should be a few more boxes placed on the outskirts of the Town as soon as convenient, on Forest Street in particular. A permanent man placed in Hose 2 house would be of benefit to the department, as three hours out of each day there is only one man in this house, and as the chemical engine is a very valuable piece of apparatus, it is essential that it should reach the fire in the shortest time possible, with safety. I think some effort should be made to decrease our rate of insurance. The Town is expending quite a sum of money on the department and should get some rebate on its insurance.

APPROPRIATIONS.

To meet the expenses for the coming year, I would recommend the sum of \$9,600.

CONCLUSION.

Before closing my report, I would acknowledge the many favors received at the hands of the Selectmen and all officers

connected with the Town House, for which they will please accept my sincere thanks.

To my assistants, I desire to express my obligations for the ready manner in which they have assisted me in the discharge of duty.

To the Captains and members, my sincere thanks for their prompt manner in the performance of all duties.

I wish to express my personal thanks to the permanent men for the promptness they have displayed in answering all alarms, and for the deep interest shown in all matters pertaining to the Fire Department.

Respectfully submitted,

CHARLES GOTT.

REPORT OF THE INSPECTOR OF WIRES.

ARLINGTON, January, 1903.

To the Honorable Board of Selectmen : —

GENTLEMEN : — I herewith respectfully submit my third annual report as Inspector of Wires and Superintendent of Fire Alarms for the year ending December 31, 1902. : —

POLES, LOCATIONS AND ATTACHMENTS.

The following number of pole locations were granted, poles set and attachments made during the ensuing year :

UNDERGROUND AND AERIAL WIRES.

The New England Telephone & Telegraph Company have completed the removing of all aerial cables on Massachusetts avenue, the last section to be taken down being between Park avenue and the Lexington line. These cables have been placed in the underground conduits with branch cables leading out at intersecting streets to the pole lines from which the wires are distributed as required. The removing of all aerial cables has also disposed of a large amount of the single wires and pole fixtures required in the past. A new class of construction was instituted the past summer by the Telephone Company in the cabling of duplex wire for streets where there are trees to pass through or where a considerable number of telephone subscribers reside. This system has been installed on Addison, Wellington and Lake streets and makes a neat class of construction besides allowing the use of many more wires without being as unsightly as was the old class of construction under these conditions. A new line of poles was built by the Somerville Electric Light Company on the easterly side of Lake street from Massachusetts avenue to Cross street. These poles are of sufficient height to carry the light wires above the trees which will prevent burning. These new poles are occupied jointly by the Electric Light Company and the New England Telephone & Telegraph Company, also by the Town wires. The street and house lighting wires that passed through Pleasant street to supply the Town of Belmont have been removed from this street, which makes four high potential wires less to contend with in regard to burning of trees, etc. The replacement of dangerous and unsightly poles throughout the Town has been carried on as fast as possible by all companies. A considerable number of the square hard pine poles on Massachusetts avenue have been found to be in a dangerous

condition and have, or are to be replaced at an early date. The painting of poles has been continued, which with the requirement that steps be placed on all poles instead of using spurs, will make a marked improvement in time. The improvements in all branches of electrical construction at the present time are many, and I am pleased to state that the various electrical companies owning wires on our streets are striving to keep things up to date.

INTERIOR WIRING OF BUILDINGS.

This class of work is on the increase and requires the most careful attention from an inspection standpoint.

The number of inspections made were 283, which is an increase of 67 over the year 1901.

Number of buildings in which wires were inspected,	127
Number of new buildings wired,	34
Number of inspections made,	283
Number of incandescent lights wired for,	1,792
Number of fan motors wired for,	5
Number of power motors wired for,	5
Number of electric flatirons wired for of 500 to 680 Watts,	6
Total horse-power of motors installed,	50 $\frac{7}{8}$

Fifty-one permits were issued by this office to the Somerville Electric Light Company to attach service wires to buildings for a total of 1,302 incandescent lamps and one 50 h. p. motor which were placed in use.

I would respectfully recommend that an appropriation be made for the purchasing of *voltmeters* and *ammeters* for this department. These instruments are very much needed to intelligently perform the duties of an Electrical Inspector.

FIRE ALARM TELEGRAPH.

At the adjourned Town meeting in April an appropriation of thirty-five hundred dollars was made for the extension and improvement of the fire alarm system. Seventeen hundred and fifty dollars to be raised by the tax levy of the ensuing year, and a like amount in the year 1903. This appropriation called for the following improvements : —

For the purchasing and placing of a 2,000 lb. bell, with electric striking apparatus in the Arlington Heights section of the Town.

For the building of a bell tower in the Henderson street district, equipped with bell formerly used on the old Cutter School.

For the purchasing of a four circuit repeater and other electrical apparatus for the fire alarm headquarters.

For the dividing of the alarm system into four circuits.

Extension of underground wires and four additional street signal boxes.

These improvements were all made with several in addition which we were able to make in closing contracts for new apparatus. Five street signal boxes were installed instead of four ; also a Universal Repeating Box and Switchboard Cabinet was placed in the Central Fire Station on Broadway. This box is equipped with 36 break wheels numbered the same as all street boxes ; also for the Forest Fire, Police, No School, and Out of Town signals. This is one of the most valuable electrical instruments in the fire alarm system. Alarms can be sent out from this box for a fire in any section of the Town. Valuable time can be saved by telephone subscribers in case of fire by calling the Central Telephone Office and giving the exact location of the fire. This would be repeated to all fire stations by the operators and an alarm will be sounded from the Repeating Box, giving the number of the nearest street box.

LOCATION OF NEW SIGNAL BOXES.

No. 31, Kensington park, near Brantwood road.

No. 162, Massachusetts avenue, between Wyman and Palmer streets.

No. 56, Appleton street, near Oakland avenue.

No. 71, Massachusetts avenue, near Hibbert street.

No. 512, Massachusetts avenue, Boston Elevated Railway Car House.

Box 512 was paid for in part by the Boston Elevated and Lexington Street Railway Companies, arrangements having been made with them to this effect. About 7,000 feet of new wire was used to install these boxes.

The new bell purchased for Arlington Heights weighs 2,028 pounds, and was put in commission May 22nd. This bell is located on the old Locke School building, now owned by the Peirce & Winn Company. A steel tower fifty feet in height was placed on land owned by the Squire Estate near Teel street, and was equipped with the bell formerly used on the old Cutter School building. This bell was placed in commission June 7th. The electric striker for this bell is the one formerly used at the Heights on the Park Avenue Church bell. A four circuit non-interfering repeater was placed in the headquarters' room in Town Hall, with repeater switch board, terminal switch board and oak cabinet, also thirty additional Type B. T. storage batteries. The repeater is the finest piece of electrical machinery in the fire alarm system, alarms being received by the same from any circuit which are automatically transmitted to all other circuits at the same time. In case of trouble on any one circuit this section is automatically cut out and does not interfere with the working of other circuits. A fifth independent circuit is connected to this instrument which has no connection with the outside circuits. On this circuit are placed the air

whistle and other apparatus in the Town Hall building, which enables an alarm to be given from the whistle, providing the whole outside fire alarm system is out of commission. Provision has also been made in the connections of this repeater for the operating of a pen register and time stamp, which will keep a printed record of all alarms and trouble that may occur, giving the exact time and date.

The alarm system was divided into five working circuits on August 9th, the system being out of a commission about twenty minutes while cutting over. A new switch board cabinet was placed in the Central Fire Station on Broadway, on which are mounted the Universal Repeating Box, Gongs, Fire Alarm Electric Light Switch, Electric Stall Door Openers and various electric buttons.

Eight thousand three hundred and fifty additional feet of rubber covered fire alarm wire was placed in the underground conduits on Massachusetts avenue between Mill and Brattle streets and Franklin and Palmer streets. The fifteen inch gong formerly used in the Henderson street district before the tower bell was placed in commission, was taken down, refinished and placed in Hose No. 2 House. The ten inch gong in this house being transferred to Hose No. 1 House.

Large printed cards were issued by this department for the first time, showing the location of street signal boxes, and we think from the demand for same that they are approved of by the citizens.

The fire lines on Lake street were rebuilt using 4,800 feet of new wire and twenty-five cross-arms. The boxes on this street are now on a loop, the old belt line of wire being removed from Massachusetts avenue to Pleasant street.

There has been no trouble or breaks in the wires during the past year. The Electric Air Pump at Town Hall broke a gear wheel on May 30th which was replaced at a cost of fifteen dollars, this being the only breakdown in machinery.

REPORT OF INSPECTOR OF BUILDINGS.

ARLINGTON, MASS., Dec. 31, 1902.

To the Honorable Board of Selectmen: —

GENTLEMEN:—I hereby submit my report for the year ending December 31, 1902. Eighty-five permits have been issued during the year. Of these I have issued for

Dwelling houses	.	.	.	39 permits
Outbuildings	.	.	.	17 “
Alterations	.	.	.	17 “

Total number of permits	.	73
-------------------------	---	----

There have been cancelled five permits on dwelling houses, the grantees being unable to complete the work. The other permits were issued by the Selectmen previous to my appointment.

The estimated cost of buildings and alterations completed or nearly so that have been under any inspection is as follows:—

Dwelling houses	.	.	.	\$138,400
Outbuildings	.	.	.	12,775
Alterations	.	.	.	14,625

Total	\$165,800
-------	---	---	---	---	-----------

The total number of inspections made have been 334. These inspections included foundations, fire stops, chimneys and general construction. When I was first appointed, some out of town contractors who evidently did not know of our building laws, were disposed to put in work which would violate the law, but when their attention was called to the matters, they cheerfully rectified all imperfections at once. For a detail of inspection, I refer you to my book of record.

Respectfully submitted,

LUCIAN C. TYLER,

Inspector of Buildings.

REPORT OF TOWN COUNSEL.

December 31, 1902.

To the Selectmen of Arlington: —

During the past year the following actions have been disposed of: —

Edgar vs. Arlington, for damages, bicycle accident on Medford street, has been settled for \$50.00.

Bond vs. Arlington, for damages arising from alleged defect on Lake street, was tried before a jury and the verdict was in favor of the Town.

The following actions are now pending: —

Partridge vs. Arlington, for damages for altering grade at Claremont avenue.

Locke vs. Arlington, for damages, bicycle accident Massachusetts avenue.

Susanna C. Cook vs. Arlington, for damages for altering grade of Broadway. This action was brought in March of the present year.

The Town was represented before Legislative Committees in the following matters: —

Diseases dangerous to the public health, Matter of supervision by Gas and Electric Light Commissioners, Spot Pond Brook, Refunding Park assessments, Metropolitan Water assessments.

The by-laws of the Town relating to the non-allowance of discounts on taxes and the changes in Town offices have been approved by the Superior Court.

An indictment and trial has been had under the by-law relating to piggeries, and the validity of the by-law sustained in the Superior Court. This matter has gone to the Supreme Court on the defendant's exceptions where the question of the validity of the by-law will be finally determined.

In the suit on the Treasurer's bonds, an auditor was appointed in the summer, but owing to the illness of counsel the actual trial of the case has been delayed. There seems to be no reason now why the case should not be pressed forward for speedy trial. The preparation of the case has required considerable time and its trial may be lengthy. Efforts are being made to eliminate as many items as possible which are not in dispute so that the trial in Court may be shortened.

In addition to the above matters the ordinary work relating to the transaction of the Town's business has been attended to.

WILLIAM H. H. TUTTLE,
Town Counsel.

REPORT OF TOWN PHYSICIAN.

To the Board of Selectmen : —

GENTLEMEN : — The following is respectfully submitted as a report of the work done in this department from January 1, 1901, to December 31, 1902 : —

Number of calls made on outside poor,	385
Number of calls at office,	256
Number of visits to Almshouse,	112
Number of free vaccinations,	537

There has been a slight increase in the amount of sickness among the Town's poor, due to several extraneous reasons.. | |

At the Almshouse the usual number of chronic cases were cared for, with few of an acute nature.

The large number of free vaccinations was done by order of the Board of Health.

The need of a hospital for the care of infectious diseases occurring among the Town's poor is still a much needed necessity.

DR. CHAS. A. KEEGAN,

Town Physician.

REPORT OF THE INSPECTOR OF MILK.

To the Honorable Board of Selectmen, Town of Arlington: —

The undersigned respectfully submits the annual report for the year 1902.

Fifty licenses have been issued to milkmen and storekeepers and the proceeds to the amount of \$25 paid into the treasury. I have examined a great many samples the past year and every test was perfectly satisfactory.

Respectfully,

CHARLES F. LUSK,

Inspector of Milk.

REPORT OF THE SEALER OF WEIGHTS AND MEASURES.

To the Honorable Board of Selectmen, Town of Arlington:—

GENTLEMEN:—I have visited and adjusted the scales and tested the weights at thirty-nine stores and factories and received in fees \$35.60, and have your Treasurer's receipt for the same.

The whole number of scales tested	.	.	119
“ “ measures, wood and tin	.	.	174
“ “ weights	.	.	404
“ “ milk jars	.	.	7,491
“ “ jars condemned	.	.	289

Respectfully submitted,

CHARLES F. LUSK,
Sealer of Weights and Measures.

REPORT OF INSPECTOR OF PROVISIONS AND SLAUGHTERING.

To the Honorable Board of Selectmen: —

I have the honor to submit to you the following report for the year 1902: —

The provision stores have been kept neat and in good condition, and provisions have been good quality; have not received any complaint during the year.

I have inspected the following number of animals slaughtered during the year 1902: Two thousand, eight hundred and twenty veal, seventeen hogs, five beef.

The slaughter house and building have been kept very neat and clean; have not received any complaints. They have not been able to slaughter any during the month of December on account of the cattle disease.

Respectfully,

FRANK P. WINN,

Inspector.

REPORT OF THE INSPECTOR OF ANIMALS.

To the Honorable Board of Selectmen: —

GENTLEMEN:—I have the honor herewith to submit my annual report as Inspector of Animals for the year ending December 1, 1902.

During the year there have been fourteen horses found to be diseased with glanders and farcy, which were immediately destroyed. There have been two cases of tuberculosis in cows, and three cases of hog cholera. Two cows and a calf, which had been brought into the State from New Hampshire, were quarantined and tested by order of the State Cattle Bureau.

In making my regular fall inspection, I have inspected two hundred and fifty (250) cows, five hundred and sixty-six (566) hogs, and one (1) sheep for tuberculosis and other contagious diseases. The owners were in all cases given the regular certificate of inspection. I also at this time inspected eighty-four (84) stables wherein these animals were stabled, and reports were in each case made out and sent to the State Bureau.

Just after this inspection had been completed, I was again ordered by the State Bureau to make another inspection, because of a serious outbreak of foot and mouth disease in cattle. This resulted in the finding of one herd of thirteen (13) cows infected with the disease. This entire herd was destroyed by the State Bureau and the stable disinfected by them.

In all cases where contagious diseases have been found, the stables have been thoroughly disinfected before other animals were allowed to occupy the same.

Respectfully submitted,

LAURENCE L. PEIRCE, M. D. V.,

Inspector of Animals.

REPORT OF THE TOWN ENGINEER.

ARLINGTON, Jan. 21, 1903.

To the Honorable Board of Selectmen:—

Herewith I respectfully submit a report for the year ending December 27, 1902, on the work done and expense incurred by the Department under my charge.

Many estimates of cost of various work and preliminary plans have been made during the year as required by the several Departments of the Town and all lines and grades have been given for construction work on highways, sewers, water mains, sidewalks, storm drains and miscellaneous work. All plans showing the location of storm drains, sewer assessments, water and gas mains and records of street grades and takings of private lands have been made and filed. All the changes and additions made during the year affecting plans and records previously filed and coming under the supervision of this Department are being prepared to date.

The classified division of time for the engineering office is as follows:—

Highways,	\$377 31
Sidewalks,	52 29
Storm drains,	56 86
Sewers,	530 29
Inspection and superintendence on sewer construction and maintenance,	396 55
Water Department,	336 49
Cemetery Department,	158 44
Particular Sewers,	328 85

Fire Alarm,	\$10 30	
Public Schools,	4 56	
Board of Health,	2 64	
Incidentals,	649 17	
	<hr/>	\$2,903 75

The incidental expenditures are sub-divided as follows : —

Board of Survey : Surveys and plans of proposed new street lines and grades as directed, and the examination of all plans submitted to the Board for approval,	\$130 35
Street Numbering : Revising the entire numbering system, making fifty-five new plans of streets, locating and plotting all building on both new and old plans, in accordance with the by-law approved April 22, 1901,	304 32
Town Lines : Relocating and setting new bounds on Massachusetts Avenue, Hibbard Street and Westminster Avenue, at the Lexington line,	21 63
Surveys and plans for conveyance of a portion of the Almshouse lot to the Trustees of Symmes Hospital, including location of right of way	36 68
Indexing and arranging of plans and records in Town Clerk's office,	15 61
Copying plans of property from Registry at East Cambridge,	33 54
Surveys, plans and photographs and attendance at court on cases pending,	13 24
Plans, studies, estimates for various committees, including plans and profiles of Tanager street and Crescent Hill avenue, and Jason street School District	93 80
	<hr/>
	\$649 17

STORM DRAINS.

Drains for the removal of surface water were laid in Kensington park from Pleasant street to Kensington road, also in Appleton street from Oakland avenue to Florence avenue, and across Massachusetts avenue, opposite entrance to Boston & Maine Railroad and at Hobbs court. Catch-basins were placed at suitable points to receive water from the street gutters and were provided with hoods over the outlets to prevent debris from passing over into the main pipes. In the case of Kensington park much ledge was encountered which added considerably to the cost of the work. The total length of storm drains now in use in the Town which have been built under systematic and improved methods is 5.5 miles.

The line of Forest street at Old Bow street has been changed by the County Commissioners to agree with the lines of the work of separation of grades by the Boston & Maine Railroad. The Commissioners have also established new lines for Bow street to connect with the new street built at the time of the separation of grades, making thereby a street forty feet in width from Forest street to Lowell street. These new lines have been permanently defined by stone bounds. Lines for location of poles have been given the Somerville Electric Light Company on Lake street, from Massachusetts avenue to Cross street and Bow street, from Forest street to Lowell street. Also lines of accepted streets have been given to property owners when requested on accepted streets.

BOARD OF SURVEY.

Under the direction of the Board, surveys and plans were made of Tanager street, Park circle, Woodland street and Bartlett avenue, from Gray street to Woodland street, showing

new lines and grades. Plans and profiles of the following streets which were received with petitions for location from the owners of abutting property were examined and reported.

	From	To	Distance
Gloucester St.	Mt Vernon St.	Highland Ave.	730 ft.
Windemere Ave.	Bartlett Ave.	H. J. Locke's land	350 "
Orchard Terrace	Medford St.	Webcowet Road	375 "
Gardner St.	Broadway	Fremont St.	1,000 "
Rangeley Ave.	Mystic St.	Glen Ave.	625 "
Glen Ave.	Mystic St	Walnut Ave	500 "
Summer St.	Pine St.	Lansdowne Road	550 "
Lansdowne Road	Summer St.	McManus land	775 "
Rockland Ave.	McManus land, southerly		700 "
Millett St.	Lansdowne Road	Brattle Park	275 "
Willow Ct.	Mass. Ave , northerly		170 "
Arnold St.	Dundee Road	Hibbert St.	750 "
Williams St.	Arnold St , northerly		782 "
Total,			<hr/> 7,582 "

A survey, plan and profile was made of Crescent Hill avenue from the Lexington line to Park place. This street was accepted by the Town December 1, 1902, and an appropriation of \$2,500 voted for construction.

WATER DEPARTMENT.

Lines have been given for the extensions of the Water Works System and all new gates, specials and hydrants have been located and plotted on the plans of the Department. The service boxes or shut-off gates for buildings have all been located and are being recorded. New and complete plans should be compiled showing boundaries and location of the Water Works property at East Lexington.

CEMETERIES.

The portion of Mount Pleasant Cemetery which was graded in 1901 has been completed by the building of the new avenues.

A contract was made by the Board of Cemetery Trustees with Michael Kelly for furnishing the material, excavating, etc.

The following are the quantities of the work done under this contract, the Water Department having first laid about 800 feet of six inch main pipe in the avenues for future use in the care of the cemetery.

298 cubic yards	Blue gravel.
26 " "	Screened gravel.
38 " "	Light macadam.
111 " "	Sub-grading.
17 " "	Brick work in catch-basins.
745 " "	Tar concrete for gutters.
453 lineal feet, 8-inch, 12-inch and 18-inch pipe laid for catch-basins.	

All surplus excavated material was deposited on Meadow Brook Park for filling.

SEWERS.

All new construction this year was done by day labor with the exception of Gray street which was built under contract with H. A. Hanscom & Company, on account of the large quantity of ledge to be excavated.

The methods employed in caring for the sewerage system are the same as last year. The sewers have been thoroughly cleaned and found to be in good condition.

The following table will show details of construction by streets in 1902 :

TABLE SHOWING COST OF SEWERS BY STREETS, 1902.

	Size.	Length.	Cost of		Total Cost.	Amount of Assessments.	Cost per foot.	Average Cut.	Character of Soil.
			Labor.	Material.					
Bartlett avenue (Woodland street to summit manhole)	6	187	\$141 91	\$50 82	\$192 73	\$170 70	\$1 03	6.5 ft.	Ledge and gravel.
Bartlett avenue (Extension to Gray street) ..	8	63	53 44	12 10	65 54	1 04	8.5 ft.	Blue gravel and boulders.
Forest st., Massachusetts ave. to Peirce st. .	8	347	368 45	114 88	483 33	397 60	1 40	8.5 ft.	Coarse gravel and ledge.
Gray street (Extension to summit manhole)	8	465	1,187 60	140 87	1,328 47	458 14	2 86	7.5 ft.	Ledge and blue gravel.

PARTICULAR SEWERS.

The labor and materials on Particular Sewers have been furnished by the Sewer Department as in previous years. The cost of the work this year is less per foot than any year since the work began in 1896.

LIST OF PARTICULAR SEWER CONNECTIONS TO JAN. 1, 1903.

	Buildings Connected.	Number of Connections.	Length	Average Cost per foot.

Totals,	768	751	47,681	

Total cost of Particular Sewers to date . . . \$32,579 58

Total receipts for Particular Sewers . . . 32,344 77

Balance \$ 234 81

Amounts due the Town from unsettled accounts, \$247 75

The Engineering Department is now well equipped with the necessary instruments for handling the engineering work of the Town in an economical manner. A part, however, of the instruments were purchased by the Sewer Department for use on sewer construction and should be transferred by an appropriation to the Engineering Department, as they are now used on general Town work for all departments.

The new vault which has been provided in the basement of the Town Hall has relieved the crowded condition of the old vaults and allows much needed space for the accommodation of the plans and records not in daily use.

Respectively submitted,

ROBERT W. POND,
Town Engineer.

REPORT OF SEWER COMMISSIONERS.

The Sewer Commissioners submit the following statement as showing the condition of the Sewer Department at the end of the year 1902, the details of the work for the year will be found in the report of the Town Engineer.

SEWER DEPARTMENT STATEMENT JAN. 1, 1903.

	Cr.	Dr.
Total assessments levied to Jan. 1, 1903		\$128,594 90
Assessments abated	\$1,036 89	
Assessments levied on cemeteries and Town property and deemed not collectable	2,784 95	
Assessments levied on church prop- erty, etc., deemed uncollect- able	1,404 99	
Assessments levied on sewers built by Metropolitan Sewer Com- mission and to be paid the Commonwealth	4,261 03	
Appropriation for Henderson street district sewers		10,500 00
Bond issue 1896 for sewer con- struction		100,000 00
<i>Amounts carried forward,</i>	\$9,487,86	\$239,094 90

<i>Amounts brought forward,</i>	\$9,487 86	\$239,094 90
Sale of main sewer to Commonwealth of Massachusetts, less collectable assessments . . .		42,400 13
Amount expended for sewer construction and maintenance (including Henderson street district sewers) as per Town Treasurer's balance, Jan. 1, 1903	267,212 34	
	<hr/>	<hr/>
	\$276,700 20	\$281,495 03
		276,700 20
		<hr/>
Balance		\$4,794 83
Stock and materials on hand for new construction		776 58
Amounts due from other departments and individuals . . .		275 88
		<hr/>
Balance for new construction		\$5,847 29
Tools, instruments, storehouse, horses, teams and equipment		\$3,246 70
Estimated value of sewer assessment plans		8,500 00
		<hr/>
		\$17,593 99

We desire to call the attention of the Town to the fact that nearly all the instruments now in general use by the Engineering Department were bought from the funds of the Sewer Department, at a cost of \$557.46, for sewer construction purposes; also that the assessments on public property, including

schools, Town buildings, parks and cemeteries, amounting to \$2,785.95 represent an amount of expenditures that have materially reduced the funds available for new construction. We ask that an appropriation to cover these amounts be made at the annual Town meeting to reimburse the department; by so doing the work can be continued without further appropriations for a period of at least two years. We again recommend that \$500 be allowed annually for the care and maintenance of existing sewers.

Respectfully submitted,

EDWARD S. FESSENDEN,

WINFIELD S. DURGIN,

WARREN W. RAWSON,

Sewer Commissioners.

REPORT OF THE BOARD OF HEALTH.

For the year ending December 31, 1902, the general health of the Town has been exceptionally good.

The entire number of cases of contagious diseases reported to the Board of Health was 123.

Of this number 103 were measles, 3 diphtheria, 4 scarlet fever, 6 typhoid fever and 7 small-pox.

Of the seven cases of small-pox, four were probably infected in Boston, Cambridge and Somerville, and the remaining three, all in the same family, took the disease from one of the four above named.

In all cases the patients were at once removed to the Somerville Small-pox Hospital, and the remaining members of the family thrice vaccinated, and quarantined for two weeks.

The second case occurred in the thickly settled district of Lewis avenue, and it seemed best to vaccinate all people in that vicinity who had not been recently vaccinated. The vaccination was done by Dr. Keegan.

This included practically all residents of the section bounded by Warren, Franklin, Hamlet and Medford streets.

Cases three, four, five and six were in one house on Teel street.

With the exception of the first case on Teel street, which was practically well when discovered, all were removed to the Somerville Small-pox Hospital as soon as the diagnosis could be definitely made.

A woman was found on Henderson street in the pustular stage of small-pox, she having escaped from a quarantined

house in Cambridge. The Cambridge Board of Health immediately removed the patient to Cambridge.

All the residents of the Teel and Henderson street district, who had not recently been vaccinated, were at once vaccinated by Doctors Keegan and Hooker, by request of the Board of Health. No new cases developed.

All these cases above mentioned had settlements in other towns and municipalities, and it is expected that their officials will meet the expenses incurred in the care of patients, and quarantine of other members of the several families.

While such extensive vaccination caused considerable expense, it seemed best to take every precaution to prevent the spread of this dread disease in Town.

The practicability of such radical measures may be seen, for with such an opportunity of exposure, no other cases developed, the only spread of the disease being among members of the same family.

The Medical Inspector has made daily visits to the various schools, and the following is his report.

The total number of children examined during the year 1902 was 1,212, of which number 109 were sent home for the following causes : —

Pediculi,	46	Chicken-pox,	3
Vaccination,	18	Favus,	2
Sore Throat,	19	Ivy poisoning,	2
Measles,	4	Stye,	3
Ringworm,	4	Erysipelas,	1
Pink Eye,	3	Whooping-cough,	1

During the fall term 270 children were examined for vaccination, of whom only 18 were found unvaccinated. The latter were afterwards vaccinated and duly inspected.

In a number of suspected cases of whooping-cough the children have been requested to remain at home. These cases are not included in above list.

Several requests have been made to parents to have children's eyes tested for glasses, which requests have been complied with, with good results

Upon request of the Board of Health, Mr. Harold L. Frost kindly submitted specimens of varieties of weeds, taken from Spy Pond, to Professor G. E. Stone of the Massachusetts Agricultural College.

Professor Stone states that the vegetable growth seen on and close to the shores of the pond is a species of Algae, whose growth is favored by the lowering of the water of the pond, thereby permitting the material to dry.

The remedy proposed by Professor Stone is to sand the entire shore.

The other growth found in the deeper water is of a decided weedy type, and can only be removed by an exhaustive and complete system of dredging.

Because of the increasing growth of the weeds in the deeper waters of the pond, and its unpleasant appearance on the surface of the water during the summer season, we earnestly recommend that the Town make a greater effort to exterminate this growth by a more extensive system of dredging during the coming summer than has been carried on in the past.

PLUMBING INSPECTIONS.

During the year ending December 31, 1902, one hundred and ten plumbing permits were applied for and duly issued. These permits covered a large amount of plumbing. Under some of said permits a portion of the plumbing was done in violation of our Town regulations relating thereto. Defects complained of

were remedied, but in some cases after considerable contention had resulted therefrom.

Increase in cost of plumbing the past year has caused much controversy by contractors slighting work to avoid expense in the execution of their contracts.

Enforcement in our Town of the new by-laws relating to the construction of buildings facilitates the inspection of plumbing.

Signed,

EDWARD S. FESSENDEN,
EDWIN P. STICKNEY, M. D.,
EDWIN MILLS,

Board of Health.

REPORT OF PARK COMMISSIONERS.

The maintenance of the park areas in charge of the Park Commissioners is about all the work which has been done during the past year.

At Menotomy Rocks Park a caretaker has been employed throughout the summer season as has been customary in years past. Under the direction of Mr. Harold Frost the trees which were most badly infested with the gypsy moth were burlapped and during the season that the caterpillar is most active these were watched and the caterpillars removed by the caretaker. During each year a considerable number of the trees in this Park die and have to be removed and it is almost impossible to grow new ones to take their places. In the opinion of the Board and the experts whom they have consulted, this is due largely to the loss of nourishment due to removing the leaves which drop in the fall. At the present time these are removed by the neighboring farmers to be used as covering, without expense to the Town. The reason for allowing this is that if the leaves remain on the ground they are liable to take fire and cause the destruction of the trees. The nourishment thus lost must be furnished in some way and in the opinion of the Board this could be done by allowing the leaves to remain and rot, but in order to do this safely it would be necessary to have the Park policed for a much longer time each year in order to extinguish any fire which might be started, necessitating a considerable increase in the appropriation for maintenance, but it seems to the Board that the money expended for this purpose

is a good investment as it will tend to preserve the trees and the beautiful appearance of the Park.

At Meadow Park very little filling has been deposited during the year. Early in the season by agreement between the Selectmen, the Board of Health and the Park Commissioners, the ashes collected near the center of the Town were dumped on the private land lying between the park land and Mystic street, near Chestnut street, to fill up a low area which was becoming a nuisance detrimental to the public health. As soon as the appropriation was made at the annual meeting for the maintenance of the parks, two men were employed to remove brown tail moth nests from the trees in Meadow Park which were badly infested, but very little could be done as the worms began to leave the nests about the time the appropriation was made.

At Russell Park it was found that the walks had been badly gullied and washed, and these gullies were filled in and the walks regraded with blue gravel.

The triangular grass plots on Medford street near Chestnut and Warren streets have been taken care of and the grass cut as in previous years.

The circular area around the standpipe on Arlington Heights has had nothing done to it by the Park Board during the year.

GYPSY AND BROWN TAIL MOTHS.

The trees in both Menotomy Rocks Park and Meadow Park are badly infested with the gypsy and brown tail moths, as are also the trees along the highways and in private land, and unless something is done to stop the work of the moths the trees will undoubtedly be seriously injured. It seems to the Board that we cannot expect help from outside but that if this work is done at all it must be done directly by the Town, and

we would recommend if it is desired to preserve the trees that an appropriation be made at once to destroy the moths at the earliest possible moment.

During the year Messrs. Olmstead Bros., landscape architects, have completed the work of preparing a design for the construction of Meadow Park, and have delivered to us three sets of plans, one a general plan, another a grading plan, and a third planting plan. They have been paid in full and the plans are on file with the Commissioners.

Respectfully submitted,

HENRY D. DODGE,
FRANK W. HODGDON,
THOMAS HOGAN,

Park Commissioners..

JAN. 31, 1903.

REPORT OF TREE WARDEN FOR 1902.

In submitting my second annual report, I do not feel very well satisfied with the condition that my department is in, as the Town, through the recommendation of the Committee of Twenty-one, refused to make an extra appropriation asked for by me, to cover the expenses for work which I thought necessary to be done in destroying the eggs of the gypsy moths in the parks and on private lands. I believe the citizens will have cause to regret their action, for I feel certain if something is not immediately done to stop their ravages, that very soon the whole Town will be infested, as they seem to multiply about three hundred fold every year. The trees on the highways, through the work done the past two years, were practically free from the brown tail and gypsy moths, but again this year, owing to the negligence of land owners, not destroying the pests, there are brown tail nests to be destroyed this year, and I find many more gypsy moth eggs on the highways than last year. The State Board of Agriculture do not seem inclined to do anything to bring the matter before the Legislature this year.

Up to this time, there has been no concerted action taken by the cities and towns in the infested district, each municipality seems to be doing something to stop the spreading of the pest, and I think Arlington should make a larger appropriation or do nothing. About \$425 was spent in destroying the nests of the brown tail moths, and \$50 on gypsy moths. The balance of the \$900 was spent for setting out and caring for trees on the highways.

Herewith find receipts and expenditures :

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY.

To the Town of Arlington: —

The Trustees of the Robbins Library submit their annual report.

A change has taken place in the composition of the Board since our last report by the election of Dr. Charles A. Keegan in the place of Mr. Matthew Rowe, who closed his connection with the Library in February, after nine years of faithful service; and by the election of Arthur J. Wellington, Esq., in place of Mr. Walter B. Farmer, who transferred his residence to Brookline. The presence of Mr. Wellington on the Board perpetuates the connection of his family with the management of the Library from the date of its organization in 1835 through four generations.

We again notice a falling off in the number of volumes taken, 43,914 for this year as against 47,369 last year. There is a slight falling off also in the number of books loaned from the Children's Room, 12,013 as against 12,188 last year. But the use of the reading room both on week days and on Sundays shows a gain. The public has made good use of the opportunity of selecting books directly from the shelves while the Library has not lost thereby a single volume.

We have continued to give exhibitions of photographs, etc., in addition to those hitherto reported.

FEBRUARY AND MARCH.

19. Photographs relating to the Revolutionary War and early Massachusetts houses.

JUNE.

20. Photographs of the City of York, England.

SEPTEMBER AND OCTOBER.

21. Photographs of Scenes on the Canadian Pacific R. R.

OCTOBER AND NOVEMBER.

22. Exhibit of Albrecht Dürer.

DECEMBER.

23. Photographs of Alaska.

The attention of the public should be drawn to the fine collection of portrait-engravings in the Art Gallery, which can be examined by adults by application to the Librarian who will furnish them a catalogue carefully prepared by Miss Caira Robbins.

Mr. Winfield Robbins has continued his generosity to the Library by the gift of seven volumes.

Mr. Henry Dexter, of N. Y. City, has presented the "National Cyclopedia of American Biography," twelve volumes.

Judge James P. Parmenter has presented "Universities and Their Sons," five volumes, a valuable gift.

Mr. Thomas W. Lawson has presented in a sumptuous volume, "Lawson's History of the America's Cup."

A welcome gift was received of two copies of "Two Graves; or, the Blue and the Gray and other poems" by the author, Thomas Moore Kenny,—a former resident of Arlington.

Mr. D. P. Corey presented a "History of Malden."

The editors of the *Advocate* and *Enterprise* continue to send us files of their papers.

The Trustees call the attention of the public to the need of a change in the grade of the lawn surrounding the Library, in order to turn the water away from the building and make effective the repairs, which cannot wisely be delayed, upon the areas surrounding the basement windows.

Respectfully submitted,

SAMUEL C. BUSHNELL,
E. NELSON BLAKE,
JOSEPH C. HOLMES,
CHARLES A. KEEGAN,
JAMES P. PARMENTER,
ARTHUR J. WELLINGTON,
Trustees.

LIBRARIAN'S STATEMENT.

Arlington, December 31, 1902.

REPORT OF THE SCHOOL COMMITTEE.

December 31, 1902.

To the Town of Arlington:—

Your several schools have been characterized by excellent and efficient work the past year. No distinction is to be drawn between them, and so no special report is required of any of them. The matters contemplated at the beginning of the year have been attended to and the safety of the pupils has been provided for by placing in each building suitable fire extinguishers. The additional property for the enlargement of the Locke School yard has been acquired. The matter of fitting the new grounds for use as a playground will require the immediate attention of the Town.

In the Locke School one new room has been opened for the fifth grade, and Miss Gertrude Williams has been elected as the teacher. In the Cutter School a new room has been opened for the fourth grade, with Miss Caroline Young as the teacher. There is one room still vacant in the Cutter building, and this is the only vacant room in Town.

Two rooms have been furnished during the year, one, a new room at the Locke, the other a room at the Russell for the fifth and sixth grades.

Miss Newton has been granted a second year's leave of absence through the desire on the part of the Committee to have the High School, if possible, ultimately retain the benefit of her services. Miss Mary B. Lippincott is substituting for Miss Newton. Mr. M. W. Mather is substituting for Miss Cutler.

Miss Laura M. Sylvester, a teacher of the ninth grade, has resigned and Miss Cora S. Burleigh has been elected in her place.

In the Crosby School, Miss Louise M. Wooster and Miss Hattie A. Snell have resigned, Miss Ethel Fletcher has been elected in Miss Wooster's place, and Mrs. Esther G. Hatch transferred from the first grade to the second grade taking Miss Snell's place. Miss Carolyn H. Parker has been elected teacher of the first grade.

In the Russell School the following changes have occurred: Miss Lena H. Abbott has resigned as master's assistant, and Miss Eleanor B. Mitchell has been elected in her place. Miss Mabel C. Pond has been transferred from the third to the sixth grade to take the place of Miss Carrie M. Poor, resigned. Miss Grace Osborne has been elected as teacher of the third grade.

During part of 1901, and the larger part of 1902, it has been necessary to employ an assistant in the first grades of the Crosby and Locke Schools, on account of the large number of pupils.

The manual training teacher is now employed three days per week. The time of his employment must be extended.

In the early summer the Committee voted to increase to \$600 per year the salaries of all the grade teachers who had been in service more than two years, the increase to begin with the fall term.

The principals of the Crosby, Locke and Cutter Schools were voted an increase of salary of \$100 each, beginning with the April term. The present salaries of these principals are each \$850.

The Russell School is still under the principalship of the Superintendent. Full superintendency, as required by law, was given to Mr. Sutcliffe beginning with the fall term. His

entire services have been extraordinarily satisfactory, whether from the Committee's point of view or that of the teacher, parent and child. He still acts as Secretary of the Committee. In performing this work the Superintendent attends to the financial work of the Committee in all its details. This financial work is a burden on him to such an extent that we believe it should not be borne much longer. His other, larger, and more important duties are a sufficient tax upon the energies of one person. It was hoped that in the adjustment and differentiation of the Town's work, the financial work of the Committee, beyond the necessary approval of bills by the Board or its sub-committees, would be given to the person who would be selected to do other like work for the Town.

A very extraordinary and unexpected expenditure has been made for fuel the current year. The usual expenditure in this respect has more than doubled, and has prevented the Committee from purchasing the usual year's supply, lasting till the end of the school year. It is fair to add here that all the janitors have performed their duties with the utmost fidelity in their efforts to hold in check the heating expenses.

Very little sickness has been manifested in the schools and no schools have been closed for that cause.

The grammar school buildings of the Town, which now include the first eight grades, are all located along the central line (a northwest and southeast line) of the Town. The distances at all points from the sides of the Town to this central line of schools are not so great as to seriously inconvenience any pupils of nine or ten years of age or upwards. The proposition of the Committee unanimously entertained by them, was and is that outlying school buildings of three or four rooms each should be built as occasion might require on either side of this line for the accommodation near home of the pupils of the first four grades. These buildings rightly placed would give the needed relief for

the expansion of the other grades in the grammar school buildings. It is hardly conceivable that within the life of any of the proposed outlying buildings substitutions of eight-room buildings will be required. In case the future growth of the Town shall make it imperative to have a large building on either side of the Town, it by no means follows that the primary buildings should be abandoned. They should continue to serve the school population until their abandonment shall be required by reason of an insufficient number of pupils. It is believed to be a matter of good judgment that children of the first four years should be schooled apart from the other grades, and this wholly aside from the question of nearness of the school to the young child. If the matter of location of buildings and distribution of pupils were to be settled *de novo*, the common judgment would undoubtedly be against the gathering in one building or in one playground of hundreds of pupils comprising all the school ages, except so far as economy and lack of space might be controlling factors.

The plan of the Committee contemplated inexpensive but attractive wooden buildings, which the Committee thought would, with proper architectural skill and proper painting, be more in harmony with the surroundings in a residential district. The artistic aspect must be left to the taste of the Building Committees and the final judgment of the Town.

Education is not a matter of buildings or building materials. The teacher is the all important agent, and the individual, and not the class or grade, is the true school unit. Teaching is not like mechanical work where the material is all alike and the machinery to work it into shape is all alike. The teacher must have the time to assist at the right points the sometimes called dull pupils, and the sometimes called bright pupils must be allowed to go ahead with work which will properly exercise their faculties. Most pupils can do profitable and

even good work, with only a very little wisely-directed individual help. More attention to the individual and helpfulness for him, more opportunity to progress according to ability, and more opportunity for essential school work in school hours, will vastly improve the individual and the school.

The "effort" mark on the child's report-card should be among the first, if not the first to attract the parents' attention and approval. Except in the rarest cases the child who works will "win out" in the mastery of his subjects. It is very difficult however for the child to give attention to a matter where certain preliminary processes are in reality unknown to him, while a good boy or girl may speedily become troublesome from a lack of sufficient subject matter to work upon.

WILLIAM H. H. TUTTLE,
Chairman of School Committee.

REPORT OF SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:—

GENTLEMEN:—I submit to you my annual report for the year ending December 31, 1902.

The character of the work done on the streets the past year has been principally re-surfacing worn out macadamized streets and graveling worn and dirt roads. This with care of sidewalks, storm drains, cleaning gutters and scraping muddy streets has constituted the work of the season.

The following statement will show the amount paid under the highway appropriation:

Appropriation, Town Grant	.	.		\$21,183 95
Credits	.	.	.	4,775 31
				<hr/>
				\$25,959 26
Expended	.	.	.	\$26,270 56
Exceeded appropriation	.	.		311 30
				<hr/>
				\$26,270 56

See Town Treasurer's report for detailed statement.

An account of the expenditures on the different streets will be found in the following table:

REPAIRS AND MATERIALS USED ON THE FOLLOWING STREETS.

Street.	Labor and Teams.	Crushed Stone.	Gravel.	Stone- dust.	Gutter Paving.	Roller.	Gravel Walks.	Total.

EXPENDED.

Labor of men and horses	\$625 69
Crushed stone, stone-dust	100 00
Pipe, tools, bends, supervision, etc.	188 50
Gravel, cement, brick, stone-cutting	205 61
Roller and miscellaneous	105 84
	————— \$1,225 64
Less credits	55 00
	————— \$1,170 64

PAVED GUTTERS.

There has been 2,028 yards of gutters paved at an expense of \$1,255.02 or a fraction less than sixty-two cents per yard. I consider money expended in paving gutters well spent, owing to the great saving to streets in time of heavy rains.

CARE OF SNOW.

As usual, the care of snow has required quite an expense in breaking out walks, keeping gutters open, crosswalks swept, and sanding icy walks which is now paid out of the general appropriation. There should be an appropriation for the care of snow.

Offal, as usual, was teamed to Mr. W. W. Rawson, and by order of the Board of Health the greater part of ashes collected was teamed to private grounds between Mystic and Cemetery streets.

MACHINERY, TOOLS, ETC.

The different pieces of apparatus used in the building and repairs of streets are in as good condition as can be expected after the many years they have been in use, and by small expense can be made to last a few years longer. The crusher is the most worn of any and will soon have to be replaced by a new one.

The carts will need but slight repairs. There should be two horses bought for next season as the department is now one short and one other getting past his labor.

In closing I wish to thank the Selectmen for their support and assistance; the heads of other departments for their prompt report of any obstacle and defects in the streets, also the men in my department for the faithful performance of all work assigned them.

Respectfully submitted,

S. E. KIMBALL,
Superintendent of Streets.

REPORT OF WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31, 1902.

The pipe systems have been extended as required as shown on the detailed statements which follow.

PIPE EXTENSIONS AND RENEWALS.

In all there have been laid 56 feet of 8-inch, 4,556 feet of 6-inch and 11 feet of 4-inch pipe, a total of 4,623 feet of main pipe. Twelve hydrants and ten gates were set.

There have been added this year seventy-eight services, forty-four connected with the high, and thirty-four with the low service. Five sewer-flushing services have been added, and two abandoned, making a total of sixty now in use.

The following tables give the extensions in detail : —

To extend the High Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Bow street.....	1,063	6	2	2
Dundee road.....	56	8
Arnold street.....	115	6	..	1
Williams street.....	575	6	2	1
West street.....	152	6	1	1

In all fifty-six feet of 8-inch and 1,905 feet of 6-inch pipe, five hydrants and five gates.

To extend the Low-Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Fairmont avenue.....	1,133	6	3	2
Fairmont avenue.....	11	4
Gardner street.....	883	6	2	1
Lafayette street.....	335	6	1	1
Orchard terrace.....	300	6	1	1

In all 2,651 feet of 6-inch and 11 feet of 4-inch pipe, seven hydrants and five gates. Six hydrants have been abandoned.

PRESENT PIPE SYSTEMS.

Length of Main Pipe in use January 1, 1903.

LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe.....	12	9,014		
“ “ “.....	8	1,347		
“ “ “.....	6	12,938		
“ “ “.....	4	20,144		
Total.....		43,443	63	38
Iron pipe.....	12	6,101		
“ “.....	10	3,926		
“ “.....	8	8,611		
“ “.....	6	18,226		
“ “.....	4	11,852		
Total.....		48,716	95	99
Total both kinds.....		92,159 17.45 miles.	158	137

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe	12	16,503		
“ “	10	17,180		
“ “	8	12,600		
“ “	6	42,239		
“ “	4	524		
Total.....	89,046 16.86 miles.	181	145

Total of both services: 34.31 miles of pipe, 339 hydrants and 282 gates. In addition there are 3,436 feet of smaller pipes, 2-inch to 1 1-4 inch which are laid in places where hydrants were not needed and the amount of water required was small.

QUANTITY OF WATER.

The average daily consumption of water on the high service, in gallons, for the months of the year 1902 was:—

January,	261,000	July,	370,000
February,	255,000	August,	324,000
March,	249,000	September,	353,000
April,	265,000	October,	338,000
May,	322,000	November,	243,000
June,	405,000	December,	256,000

Daily average for the year, 304,000

For the 586 services this gives an average consumption of 519 gallons per service per day. The consumption in 1901 was 624 gallons per service, the decrease in 1902 being about 0.9 per cent.

RESERVOIR.

The reservoir and reservoir lot have received the usual attention. The sum of \$175.08 has been expended during the

year in fencing, cleaning, weeding and lowering spillway. It is recommended that the reservoir lot and the stand-pipe lot be placed in charge of the Park Commissioners, and that a sufficient annual appropriation be made to keep them in good condition.

WATER METERS.

Water meters still continue in successful use for field irrigation, green-houses, hot-beds and wash-houses. Twenty-five have been added and four discontinued during the year, and ninety-four are now in use.

USES AND INCOME.

The following table, prepared by the Water Registrar, shows the number of fixtures supplied and gives the total income for 1902.

	Low.	High.
Number of services.....	1,120	580
Houses paying \$25.....	155	131
First faucets.....	1,306	613

First hydrants; no income.....	158	181
Drinking fountains; no income	4	1
Stand-pipes for street watering; no income.....	15	6
Income, 1902.....	\$35,321 07	

STOCK.

There are on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for carrying on the works, 792 feet of 12-inch, 600 feet of 10-inch, 2,820 feet of 6-inch, and 3,000 feet of service pipe. The total value including horses and wagons, etc., is \$6,276.51.

RECOMMENDATIONS.

We make the following recommendations : —

That all the cement-lined pipes on the low service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is high. That the water pipes be extended according to the established rules. That all lands in and about the Great Meadows not absolutely needed for a reserve water supply be sold.

Respectfully submitted,

GEORGE W. LANE,

PETER SCHWAMB,

GEORGE P. WINN,

Water Commissioners.

REPORT OF THE SUPERINTENDENT OF THE WATER WORKS.

To the Arlington Water Commissioners:—

GENTLEMEN:— My report for the year ending December 31, 1902, is hereby respectfully submitted.

EXTENSION OF MAIN PIPE.

Four thousand six hundred and twenty-three feet of pipe have been laid, twelve hydrants and ten valves set at a cost of \$4,539.06.

Location.	Cost.
Bow street	\$1,478 46
Dundee road	70 87
Williams street	562 65
Arnold street	117 60
West street	212 07
Fairmont street	831 30
Gardner street	669 23
Lafayette street	283 66
Orchard terrace	313 22
	<hr/>
	\$4,539 06

SERVICE PIPES.

Seventy-eight services have been added during the year at an average cost of \$13.59.

REPAIRS ON SERVICES.

Fifty-nine leaky services have been repaired, thirty-one on the high and twenty-eight on the low service system.

HYDRANTS AND GATES.

Three hundred and thirty-nine hydrants and two hundred and eighty-two gates are in use and in good condition. One leaky and two broken hydrants have been removed and replaced with new hydrants.

LEAKS IN MAIN PIPE.

Sixteen leaks have been repaired in the main pipes, eleven in the high and five in the low service systems.

STANDPIPE LOT.

The standpipe lot has been cared for the same as last year. The Metropolitan Water Board paying \$25.00 as their share of the expense.

THE GREAT MEADOWS.

Have been drained and the main brook cleaned and deepened from the junction of Fessenden brook to the Slocum mill pond. The water from the Fessenden and Monroe brooks is running at the present time through the meadows and passing around the reservoir instead of emptying into it.

RECOMMENDATIONS.

Again I would recommend that the renewal of the cement pipe on Massachusetts avenue be continued from Winter

street to below Henderson street to connect with the 6-in. cast iron pipe laid there some years ago, and that at least a 6-in. pipe be laid in Winter street, as the present pipe is inadequate for the protection of property on that street in case of a serious fire; also that the remaining cement-lined pipe be renewed as soon as possible; that the Metropolitan Water Board be requested to lay a force main from the end of their present pipe at the junction of Massachusetts avenue and Brattle street direct to the standpipe. I believe that the constant pulsation of the pump is the cause of so many leaks in the house services on the high system.

Respectfully submitted,

THOS. RODEN.

EXTRACTS FROM RULES OF WATER WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely :

DWELLING HOUSES.

Occupied by one family, for the first faucet . . .	\$6 00
When a first faucet is used in connection with lawn hose	5 00
For each additional faucet, to be used by the same family	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be \$1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family.	4 00
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house :	
Whenever one service-pipe supplies <i>four</i> or more tenements, the rates shall be paid by the owner, and there shall be a discount of ten per cent : <i>provided, however</i> , that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub	5 00

For each additional bath-tub	\$3 00
For bath-tubs convenient to faucets, but not connected, the rate will be \$3.00 per year.	
For the first water-closet	5 00
For each additional water-closet	3 00
For hopper water-closets.	8 00
For vaults flushed with kitchen sink water in case such vaults are not used in connection with a water-closet, the rate will be \$2.00 per year.	
When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family	4 00
Where two faucets are used one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: <i>provided</i> , that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00
If lawn hose is used the maximum rate is	24 00

BOARDING HOUSES.

For the first faucet	\$10 00
Each additional faucet	2 00
Water-closet or bath-tub. when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

STORES, OCCUPIED AS OFFICE, SHOP, OR SIMILAR PURPOSE.

First faucet	\$6 00 to \$20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water \$6 00 to \$25 00

HOTELS.

For each bed for boarders and lodgers \$3 00
 For each bath-tub in a hotel 10 00
 For each water-closet in a hotel 10 00

PUBLIC BATHS.

For one tub in a public bath-house \$10 00
 For each additional bath-tub 5 00
 For one water-closet in a public bath-house 10 00
 For each additional water-closet 3 00

STABLES.

Private Stables. For the first horse \$5 00
 “ For each additional horse 3 00
 “ For one cow 2 00
 “ For each additional cow 1 00
 Livery club, and boarding stables. For each horse 3 00
 Car and omnibus stables. For each horse 2 00
 Truck and cart stables. For each horse 2 00
Provided, that in no case shall any stable be charged less than 5 00

The rates for stables include water for washing carriages without hose ; when hose is used \$3.00 additional.

HOSE.

The following regulations are uniform throughout the Metropolitan District for 1903 : —

The use of water through hand hose, on premises where the water supply is *not* metered, shall be restricted to two hours in each day between the hours of five and eight A. M. and five and eight P. M.

The hose must be used with a nozzle not exceeding three-sixteenths of an inch in diameter, and while so used must be held in the hand of a person on the premises of the water taker

For hose used in this manner, when supplied from the house service, the charge will be \$4.00 per year. If a separate service is used the charge will be \$6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

STEAM BOILERS.

For each boiler in use not over twelve hours a day,
for each horse power \$6 00

METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows :

Up to	40,000 cubic feet per year,	15 cents per 100 cubic feet.
From 40,000 to	80,000 " " " "	13 " " 100 " "
From 80,000 to	1,000,000 " " " "	12 " " 100 " "
Over	1,000,000 " " " "	10 " " 100 " "

The following meter rents will be collected each year in addition to the above charges : — For a 5-8 in. meter, \$2.00 ; a 3-4 in. meter, \$3.00 ; a 1 in. meter, \$4.00 ; a 1 1-2 inch meter, \$8.00

The minimum charge for metered water, including the meter rent, will be \$15.00. In case more than one meter is used by a water taker the minimum charge for water will be \$15.00 for each meter, including the meter rent. In case of meters used on hose connections the charge will be the meter rent plus that for water used. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that water takers read their meters occasionally to satisfy themselves whether or not they are working, and that they immediately send notice of any irregularity to the Water Board.

Bills for metered water will be made out January 1st and July 1st.

BUILDING PURPOSES.

The minimum charge for water for building purposes is \$3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year :

For a jet of 1-16 of an inch	\$3 00
“ “ 1-8 “ “	5 00
“ “ 1-4 “ “	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the

house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is twenty-five cents for each operation.

In case one service supplies several tenants, the owner must give notice to the Water Registrar *at once* when tenements are vacated and also when the tenements are again occupied in order to have any rebate allowed. *All notices must be written and must be sent to the Water Registrar.*

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the Town shall require.

PIPE EXTENSIONS.

Vote of Town, passed April 14, 1896.

Voted:—That the Water Commissioners shall, before laying main water pipes in any street or way, require the party or parties asking for same to deposit with the Town Treasurer the sum of thirty cents for each lineal foot of pipe to be laid, less an amount equal to the established water rates for five years on the fixtures supplied at the time of laying the pipe, the said sum to be held by said Treasurer in trust for a term of five years and at the end of said term paid into the Town treasury to the credit of the water works, unless the rates actually collected during the said five years on account of fixtures supplied directly from said pipe exceed the amount originally estimated and deducted from said sum of thirty cents per lineal foot, in which case said excess shall be repaid to the depositor to the extent of the original deposit and the balance, if any, paid into the Town treasury as aforesaid, excepting otherwise ordered by the Town.

LIMITS OF HIGH AND LOW SERVICE DISTRICTS.

According to an understanding with the Metropolitan Water and Sewerage Board the dividing line between the high and low systems has been made to conform as nearly as possible to contour 60 above Boston City Base. The low service district is bounded by the following streets which are to be supplied from the low service on both sides; the low service is, however, to be extended to the depth of one house-lot only on the high sides of the bounding streets:—Beginning at Mystic Lake, Fairview avenue to Mystic street; Mystic street to Summer street; Summer Street to Grove street; Grove street to Massachusetts avenue, including Grove street place and Dudley street as far as Brattle street; Massachusetts avenue to Academy street; Academy street to Maple street; Maple street to Pleasant street; Pleasant street to the Belmont Line, including Pelham terrace.

It is understood that either the high or the low service may be used on Massachusetts avenue between Brattle street and Grove street, also that for purposes of fire protection the high service may be extended into the low service district.

WATER WORKS.
